MILITARY DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers:—

From the Acting Deputy Chief Engineer Central Circle, Chepauk, 13th February 1862, *No.* 10,541; *to the Chief Engineer and Secretary to Government, Public Works Department.*

I have the honor to submit the accompanying Plan and Estimate amounting to Rupees 200, for constructing a Bath-room in the square of the West Recruit Depôt at Saint Thomas' Mount.

2. Much inconvenience is now felt by not having a Cook and Bath-rooms to the centre Bombproof Barrack attached to the Depôt. The erection of the former is reported to be unnecessary at present, as there is a building which could be converted into a Cook-room by a very slight alteration.

3. In the Plan and Estimate received from the District Engineer, it was proposed that the water from the Bath-room should run out by small holes in the rear wall which is part of a compound wall built of brick in mud—the Estimate amounted to Rupees 200, but as to re-place the wall noticed above by one of brick in chunam, would only raise the Estimate to Rupees 260, I think it would be preferable to make the works a good one at once and accordingly recommend the revised Estimate for sanction—the amount to be defrayed from the general funds at the disposal of the District Engineer Madras.

Referred to the Military Department for consideration. The District Engineer's Estimate amounts to Rupees 200, but by adopting the Deputy Chief Engineer's suggestion, contained in paragraph 3, the amount will be raised to Rupees 260.
