MARINE DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter from Colonel W. I. BIRDWOOD, Deputy Chief Engineer, Southern Circle; to Lieutenant Colonel W. H. HORSLEY, Chief Engineer, and Secretary to Government, Public Works Department, Fort Saint George, dated Chepauk, 18th February 1862, No. 10,675.

Enclosures 6.

1 Letter from District Engineer, No. 289, dated 21st January 1862.
1 Copies of letter enclosed therein.
1 Letter from Superintendent of Marine, No. 288, dated 31st January 1862.
1 Plan, 2-1-31-1862.
1 Specification.
1 Abstract Estimate.

No. 288, dated 31st January 1862.

I have the honor to forward, for submission to Government, a Plan, Specification, and Estimate, amounting to Rupees 70, for constructing a Watch House for the use of the Light House at Calicut, in the District of Malabar, prepared at the request of the Master Attendant at that Station, and approved of by the Superintendent of Marine.

2. The District Engineer, it will be observed, reports in his letter No. 289, dated 21st January 1862, (herewith forwarded) that the present building is too old to be repaired, and that it would cost as much for repairing it, as for erecting a new shed. The accompanying estimate therefore provides for a new building, consisting of one room 10 feet in length and breadth, with laterite and chunam walls, and thatched roof.

3. The materials available from the old building are valued at Rupees 10, and deducted from the estimate—which has been examined in this Office and found correct. The rates given in it are those prevailing in the Malabar District, and are moderate, but sufficient to carry out the work. I request therefore that you will be good enough to obtain the early sanction of Government thereto, the amount, Rupees 70, to be defrayed from the general funds placed at the disposal of the District Engineer for expenditure during the current official year.

Referred for the consideration of the Marine Department.

FORT SAINT GEORGE,
21*st February* 1862.
