*Proceedings of the Madras Government, Public Works Department,
20th March 1862.*

Read the following papers :—

No. 334. From Lieutenant-Colonel J. OUCHTERLONY, Acting Deputy Chief Engineer, Northern Circle, to Lieutenant-Colonel W. H. HORSLEY, Chief Engineer and Secretary to Government, Public Works Department, dated Chepauk, 27th January 1862, No. 9,867.

SIR,

1 Letter from District Engineer,
Nellore, No. 32, dated 6th January
1862.
1 Estimate.
1 Report.
1 Plan.

1. I have the honor to forward herewith for the purpose of being submitted to Government a revised plan and estimate, the latter amounting to Rupees 2,900, for a Dam proposed to be built on the Jaffer Saib Channel in the Nellore District, to divide or apportion off the due allotment of water to each of the three branches into which it is separated near the village of Allipuram.

2. A plan for a work for this same purpose, the estimate for which amounted to Rupees 2,300, was sanctioned by Government in the Orders No. 943, 15th May 1861, included in the estimate for Rupees 30,000, and entered in Budget of 1862-63. marginally noted, but on proceeding to line it out on the ground the District Engineer found it was unsuited to the object in view, and he in consequence traced the outline of such a Dam as was required on the bed of the Channel, and prepared a fresh plan in accordance with the resulting measurements.

3. The additional extent of masonry which this alteration has entailed, the substitution of dressed and set laterite for rough stone in the body of the apron, the substitution of teak for perishable jungle wood for bridge joists, rails, &c., and a slight rise which appears to have taken place in the building data, sufficiently account for the increase of Rupees 600 in the amount of the present estimate, and I therefore trust Government will see fit to authorize the substitution of the sum of Rupees 2,900, for that of Rupees 2,300, formerly sanctioned for the work in question.

No. 335. From Lieutenant-Colonel J. OUCHTERLONY, Acting Deputy Chief Engineer, Northern Circle, to Lieutenant-Colonel W. H. HORSLEY, Chief Engineer and Secretary to Government, Public Works Department, dated Chepauk, 20th February 1862, No. 125.

SIR,

1 Letter from District Engineer,
Nellore, No. 301, dated 15th
February 1862.
1 Sketch.
2 Plans.

1. With reference to your Memorandum No. 21, dated 4th instant, I have the honor to submit further correspondence on the subject of Captain Mullins' proposed alterations in the plan of the dividing Dam at Allipuram, on the "Jaffer Saib's" Channel in the Nellore District; together with a sketch of the locality by which the views of the District Officer will be better understood.

2. Under the explanation now given I trust early sanction will be given for the increased expenditure, viz., Rupees 2,900, instead of Rupees 2,300, already sanctioned.

No. 336. ORDER THEREON, 20th March 1862, No. 498.

Under the explanation furnished in the District Engineer's second letter and its accompanying sketch, from which his proposed re-arrangement of the dividing Dams is shown to be an improvement, the Government resolve to sanction the estimate amounting to Rupees 2,900 in substitution of the one submitted with the Chief Engineer's letter No. 42, dated 2nd May 1861, for Rupees 2,300, and which is included in the estimate of Rupees 30,000, sanctioned by Government in their Proceedings No. 943, dated 15th May 1861, and entered in the Budget of 1862-63.

(Signed) W. H. HORSLEY, Lieut.-Colonel,
Secretary to Government.

re-arrangement of the dividing
