MARINE DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers :—

From Lieutenant Colonel J. OUCHTERLONY, Acting Deputy Chief Engineer, N. C.; to Lieutenant Colonel W. H. HORSLEY, Secretary to Government, D. P. W., dated Chepauk, 4th March 1862, No. 188.

Enclosures 5.
1 Letter from District Engineer, Vizagapatam, No. 931, dated 18th November 1861.
1 ditto ditto No. 1,240, dated 13th February 1862.
1 Abstract Estimate.
1 Report.
1 Plan.

Accompanying is an Estimate *Rupees* 132, with Plan, &c., for a small godown required to house the Stores of the Santapilly Light House, Vizagapatam District, and for some minor improvements.

2. Formerly these Stores were kept inside the Light House on the basement story, but a brick column having been raised in the centre for the purpose of increasing the altitude of the lantern shaft the space became obstructed and hence other provision has to be made for the Government property.

3. The Lascars' well requires deepening, at an expense of Rupees 5, and Rupees 2-14-1 are allowed in the Estimate for enclosing a verandah.

4. I beg leave to recommend the work for sanction.

Referred to the Marine Department for consideration.

6th March 1862.

Referred for the remarks of the Superintendent of Marine.

(Signed) T. PYCROFT,
Chief Secretary.

FORT SAINT GEORGE,
7th March 1862.

From J. J. FRANKLIN, Esq., Superintendent of Marine; to the Honorable T. PYCROFT, Esq., Chief Secretary to Government, Marine Department, Fort Saint George, dated 12th March 1862, No. 823.

In returning the papers referred to me for remark under date the 7th instant, I have the honor to observe that it is proposed to build a detached godown for the safe custody of the Stores belonging to the Santipilly Light House, and that the necessity of it is represented as being occasioned by the room in which they were formerly kept, having been blocked up by a column which the raising of the light required to be erected there.

2. The amount of the estimate appears to be very moderate, but as there is already an Oil godown 12 feet square, it occurs to me that the Stores might be kept in that, in which case the new building might be dispensed with.

ORDER THEREON, 18th March 1862, No. 72.

Referred to the Collector of Vizagapatam, who is requested to state whether the proposed expense may not be avoided by the arrangement suggested by the Superintendent of Marine.
