417-418.

Dated 22-3- 18 62

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 22nd March 1862.

No. 417. Read the following Endorsement of the Chief Engineer, dated Chepauk, 8th March 1862, No. 11,286.

Endorsement of the Acting Deputy Chief Engineer, Central Circle, dated Chepauk, 1st March 1862, No. 11,043.

Read the following letter from Captain H. L. PRENDERGAST, District Engineer North Arcot, to Lieutenant-Colonel J. CARPENDALE, Deputy Chief Engineer, Central Circle, dated Arcot, 21th February 1862, No. 1,442:—

SIR,

* No. 10,519.

1. With reference to Government Order No. 156, of the 7th instant, communicated* to me on the 13th instant, I have the honor to report that after conferring personally with the Collector, I am prepared to lay out the following additional sums of money, in the current official year, on the Pálár and Poinnay Anicut projects:—

	RS.
On the Western Extension of the Poinnay Anicut Channels, in addition to 8,000 Rupees already sanctioned.....	2,000
† No. 1,366 of the 10th February 1862. On the Dusy Main Channel on estimate of Rupees 17,500 lately sent†, in Rupees 1,000 to 1,500.	3,000
‡ No. 1,411, of the 24th February 1862. On the Channel from Pulundy Chittairy to Arumbarty tank, on estimate of Rupees 2,150, now sent‡ in and specially ordered by Lieutenant Colonel Boileau Rupees 2,000 to 1,500.	
In raising the piers of the bridge over the Pálár Anicut, should it have been determined to carry on this work next year.....	2,000
Total...	7,000

2. For this latter work materials are now prepared, but in case this work is to be deferred I would ask for only the Rupees 5,000, the sum of the two preceding items.

3. The time being now so limited I beg to be early informed of sanction being granted.

1 Letter from the District Engineer North Arcot, No. 1,442, dated 24th February 1862.

1. Submitted to the Chief Engineer, Department Public Works, with the Acting Deputy Chief Engineer's recommendation that the sums applied for, for the first two works, viz., Western Extension of the Poinnay Anicut Channels, and the Channel from Pulundy Chittairy to Arumbarty tank, amounting in the aggregate to Rupees 3,500 may be authorized. The bridge over the Pálár Anicut is not, it is understood, to be sanctioned.

2. The whole expense of repairing and improving the Dusy Main Channel has been recommended to be defrayed from the 1 per cent. Income Tax, and the amount of the estimate is Rupees 17,500, so that only Rupees 3,500 is wanted from General Funds.

(Signed) J. CARPENDALE Lieut.-Colonel,
Acting Deputy Chief Engineer, Central Circle.

1 Original letter No. 11,043, dated 1st March 1862, with one letter No. 1,442.

1. Submitted to Government with reference to their Proceedings, dated 7th February 1862, No. 156.

2. The Deputy Chief Engineer, Central Circle, proposes that of the grants applied for by the District Engineer, the following should be authorized:—

	RS.
Western Extension of the Poinnay Anicut Channels.....	2,000
Channel from Pulundy Chittairy to Arumbarty tank.....	1,500
Total...	3,500

and specially ordered by Lieut.
24th Feby 1862 Col. Boileau Rs. 2000 to 1500,

Proceedings of the Madras Government, Public Works Department, 22nd March 1862.

3. The District Engineer applies for a grant of Rupees 1,500 for the Dusy Main Channel; but as the entire expense of repairing and improving that work has been recommended to be defrayed from the 1 per cent. Income Tax collections, the Deputy Chief Engineer does not support the District Engineer's proposition. As some delay, however, is likely to take place before receiving the approval of the Government of India to the list of works to be undertaken from the four lac fund sanctioned for this Presidency from the above source, the Chief Engineer has the honor to recommend that in addition to the sum of Rupees 3,500 for the first two works, Rupees 1,500 be allowed also for the Dusy Main Channel, making an aggregate of Rupees 5,000, which it is proposed should be met from the balance of the Reserve fund of 1861-62. The balance of the estimate of Rupees 17,500 for the Dusy Main Channel, viz., Rupees 16,000, will be provided for from the four lac fund above referred to.

(Signed) W. H. HORSLEY, Lieut.-Colonel,
Chief Engineer.

No. 418. ORDER THEREON, 22nd March 1862, No. 510.

The Government authorize the grant of Rupees 5,000 from the Reserve Fund of the current year, for the works in the North Arcot District referred to in the Chief Engineer's Endorsement.

(Signed) W. H. HORSLEY, Lieut.-Colonel,
Secretary to Government.
