Dated 25—3— 1862.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 25th March 1862.

No. 455. Read the following letter from Lieutenant-Colonel J. OUCHTERLONY, Acting Deputy Chief Engineer, Northern Circle, to Lieutenant-Colonel W. H. HORSLEY, Secretary to Government, Public Works Department, dated Chepauk, 14th March 1862, No. 213 :—

SIR,

1 Letter from District Engineer Godavery, No. 1,329, dated 6th March 1862.
1 Estimate.
1 Report.
2 Plans.

1. I have the honor to forward herewith for the consideration of Government an estimate, accompanied by plan, sketch, &c., amounting to Rupees 2,740 for converting an existing "escape," built of rough undressed stone, for the surplus water of the Cocanada Canal near the Chintapilly Lock, into a permanent masonry Calingulah.

2. The necessity, or at least the advisability of this measure appears clearly established, the cost of repairs to the present work during last year having amounted to little less than half the sum estimated as the cost of rendering it solid enough to withstand the effects of the very considerable discharge of water which frequently takes place over it.

3. The Collector concurs in the proposed arrangement, materials are being already collected for the work, and I therefore beg leave to recommend it for early sanction ; the amount to be allotted from the General Fund of the District.

No. 456. ORDER THEREON, 25th March 1862, No. 560.

The estimate submitted with the above letter amounting to Rupees 2,740 is sanctioned for immediate execution from the General Funds at the District Engineer's disposal.

(Signed) W. H. HORSLEY, Lieut.-Colonel,
Secretary to Government.
