**ECCLESIASTICAL DEPARTMENT.
PROCEEDINGS OF THE MADRAS GOVERNMENT.**

Read the following letter from Lieutenant Colonel J. CARPENDALE, Acting Deputy Chief Engineer C. C. ; to Lieutenant Colonel W. H. HORSLEY, Secretary to Government, Public Works Department, dated 14th March 1862, No. 11,536.

Enclosures 6.
1 Letter from the District Engineer Presidency, No. 2,331, dated 12th February 1862, with 1 enclosure.
1 Do. from the Venerable the Archdeacon of Madras, No. 47, dated 7th March 1862.

1 Plan.
1 Estimate.
1 Specification.

I have the honor to forward a Plan and Estimate amounting to Rupees 475, for making and putting up a new frame for suspending the Bell of Saint Mary's Church in Fort Saint George.

2. The Estimate has been prepared by the District Engineer Presidency on the requisition of the Brigade Major, who reported that

the Bell stand is in a decayed state, and will most probably soon tumble down. It provides for a new teakwood frame, with an iron cog wheel at its top with screw axle and handle, &c., to admit of the Bell being turned round horizontally so as to prevent its being struck constantly on the same place by the Clapper. The Bell is proposed to be hung so that very little power will be required to ring it.

3. The Plan and Estimate have been approved of by the Venerable the Archdeacon, and they have undergone the usual examination in this Office; and I now beg to recommend the same for the sanction of Government from the general funds at the disposal of the District Engineer Presidency.

Referred for the consideration of the Ecclesiastical Department.

(Signed) W. H. HORSLEY, Lieut. Colonel,
