In acknowledging your Memorandum* forwarding for information Proceedings of Government for my observations, on the letter of the Deputy Chief Engineer Southern Circle, regarding the removal of night soil from the Wellington Barracks, I have the honor to state that I am of opinion that the plan proposed by Mr. Groves, of Coonoor, for the removal and utilising the sewage, appears to possess many advantages, and that his proposition may be accepted, with a view in the first place to his testing his project for his own satisfaction and at his own risk, when further arrangements as to the terms upon which he may be allowed to hold the Contract might be entered into.
