Acting District Engineer's Office,
Doubtless and, 4th June 1863.

No 55.

From Major J. H. Stedden
Acting District Engineer's Office

River Improvements

Captain C. W. S. Chamberlain Esq
Superintending Engineer's Office

Sir,
Wiltshire.

For enquiry.

I have the honor to forward a survey of the
bed of the Gortiverry river for 10 miles above
& 5 miles below the Aqueduct as taken in the
summer of 1862, agreeably to the Order of
Government. No 116 dated 12th March 1862.

2. The Suboverseer who made the survey
misunderstood the instructions about taking
cross-sections, and only took soundings, so
that the height of the sand banks are not
shown - and before he could take the level
across the river, rose and put an end to the
work for that year.

3. As my supply of Drawing paper was
out, the survey was plotted on Dressed paper.

To.
 Colonel W. G. Birdwood Esq
 Secretary to Government
 P.W.S.

Sir,
 I have the honor of forward-
 ing per Dargah a Chart of the
 Goddard River for the year 1862,
 as directed in order of Govt as
 per margin.

2 Unfortunately this document
 will prove but of little use, as,
 vide the Asst. District Engineer's letter
 attached, the Surveyor employed
 by him, from misunderstanding
 orders, has given no section of the
 level of and sand banks above
 the ancient.

3 The lines of soundings were taken
 by him at a time when the surface
 of the water was at a level with
 the Crown of the ancient.

I have the honor to be
