The Governor and Commander-in-chief being both at Bangalore, I considered this a favourable opportunity to remain there, and settle matters regarding the Construction of the New Barracks & the Water Project. The closest attention was given by me to all the Executive Officer's arrangements, and I have to a certain extent indicated the system of Contract, both for the repairs of Roads in the Cantonment, and the Construction of new works. It will not be necessary for me to go again to Bangalore for 9 or 10 months, and it will be observed that I took a considerable time in making my inspection of that place.
