Government of Madras.

Public Works DEPARTMENT.

G.O. No.	1381	Press Mis.
Dated	1-0-	1863.

Not to be folded or roughly handled

*Proceedings of the Madras Government Public Works Department,
1st June 1863.*

No. 9. Read the following letter from Lieutenant-Colonel E. HEMERY, R. E., Superintending Engineer of 3rd Division to Colonel W. I. BIRDWOOD, R. E., Secretary to Government, Department Public Works, dated Madanapalle, 18th May 1863, No. 8:—

SIR,

1. I have the honor herewith to forward for the approval of Government a letter which I, as District Engineer of Cuddapah, addressed to the Deputy Chief Engineer, Central Circle, on the 14th ultimo, and which has been returned to me as Superintending Engineer 3rd Division for disposal.

1 Letter from the District Engineer of Cuddapah, No. 1,272, dated 14th April 1863.

2. The amount Rupees 1,007 required for the subsidiary Jails at Cuddapah and Badwail, sanctioned by Government in their Order No. 781, of the 27th March 1863, can be met from the sum of Rupees 1,080 entered at page 50 of the printed Budget of 1863-64 for repairs of Judicial buildings in the Cuddapah District.

From Lieutenant-Colonel E. HEMERY, R. E., District Engineer of Cuddapah, to the Acting Deputy Chief Engineer, Central Circle, dated Madanapalle, 14th April 1863, No. 1,272.

SIR,

1. In acknowledging the receipt of the Chief Engineer's Official Memorandum No. 6,461, communicating copy of a letter from the Accountant General to the Collector of Cuddapah, in which the sum of Rupees 1,007 is placed at my disposal from the Reserve Fund for expenditure on subsidiary Jails sanctioned by Government in their Order No. 781, of the 27th ultimo, I have the honor to inform you that as it is not possible to expend that amount on Jails before the end of this month, and as funds are urgently required for works of irrigation in the Khadri Taluq, where a large amount is due to coolies, I have placed the above sum of Rupees 1,007 at Major Palmer's disposal for expenditure in that Taluq.

2. Owing to the very small balance remaining at my disposal this month, I have been unable to allot a single Rupee from Imperial Funds for the Khadri Taluq, where several works of irrigation are now in progress; I therefore trust that the Chief Engineer will not object to the course I have adopted with regard to the sum of Rupees 1,007 which otherwise could not be spent.

3. Several of the works in the Khadri Taluq are being carried out by heads of villages on contract, but they have not been paid since the 25th ultimo for want of funds, and I very much fear that if payments are not made this month they will throw up their contracts, and a great blow will be given to the system which I am endeavouring to introduce into every Taluq of the District.

No. 10. ORDER THEREON, 1st June 1863, No. 1,381.

As it is irregular to expend sums allotted for repairs on original works the Government direct that the amount, viz., Rupees 1,007, referred to in this letter be met from the Reserve Fund.

(Signed) W. I. BIRDWOOD, Colonel, R. E.,
Secretary to Government.

Camp Madanpalle
District Engineer's Office
12th April 1863

From

Lieut. Col. E. Murray Esq
District Engineer
Maddur

To

The Ag. Dy. Chief Engineer
Whitehall, Madras

Sir,

In acknowledging the receipt of the Chief Engineer's official communication by communicating copy of a letter from the Assistant General to the Collector of Maddur, in which the sum of Rs 1000 is placed at my disposal from the Reserve Funds for expenditure on Subsidiary Sails sanctioned by Government in their Order of 1861 of the 25th Ultimo, I have the honor to inform you that as it is not possible to expend that amount on Sails here for the last 6 months, and as from the 1st of January 1863 required for work of irrigation in the Madras Sailing a large amount is due to be paid, I have placed the above sum of Rs 1000 at Major Palmer's disposal for expenditure in that Sailing.

2. During the past few months, remaining at my disposal the month, I have been unable to allot a single rupee from Special Funds for the Madras Sailing & several works of irrigation are now in progress; I therefore trust that the Chief Engineer will be obliged to the Comd. Genl. & to the Dy. Commr. to the Dy. Commr. of the Madras Sailing which & otherwise could not be effected.

3. Several of the works in the Madras Sailing are being carried out by Heads of Villages on Contract, but they have not been paid since the 25th Ultimo for want of funds, and they much fear that if payments are not made this month they will throw up their contract and a great blow will be given to the system which I have been endeavoring to put into effect in the Sailing of the
