*Proceedings of the Madras Government, Public Works Department,
5th June 1863.*

Read the following papers:—

No. 109. From Captain C. V. WILKIESON, R. E., Controller and Auditor of Public Works Accounts, to Colonel W. I. BIRDWOOD, R. E., Secretary to Government, Public Works Department, dated Mount Road, 20th May 1863, No. 604.

SIR,

With reference to the Proceedings of Government and notification in the official Gazette noted in the margin, I have the honor to state, that if the pay of the Establishments of the District Engineers, permitted to be retained until further orders, is passed from the 1st of the current month, in addition to that of the Establishments of the Superintending Engineers, there will be a large excess not provided for in the Establishment Budget of the current year; and the same may be said of the salaries of District Engineers, not provided for in the higher grade of Superintending Engineers. I again beg, therefore, to be furnished with the instructions of Government on the subject, in time to admit of the passing of Bills which will be presented for audit at the beginning of next month.

No. 110. From Captain C. V. WILKIESON, R. E., Controller and Auditor of Public Works Accounts, to Colonel W. I. BIRDWOOD, R. E., Secretary to Government, Public Works Department, dated Mount Road, 30th May 1863, No. 680.

SIR,

1. With reference to my letters noted in the margin, I have the honor to bring to notice that if the Bills for Public Works salaries which may be presented to me for audit in the beginning of next month are passed as they have been hitherto done, there will be a considerable excess over the Budget grant for this year.

2. The total allotment on account of Establishments for the past year amounts to Rupees 16,85,540, and this gives a monthly charge of Rupees 1,40,460, but by continuing to pass the salary Bills at this rate as was done in the present month an excess of Rupees 33,800 per month will take place calculated with reference to the allotment of only Rupees 12,80,000 provided in the Budget of 1863-64, which allows of a monthly charge of only Rupees 1,06,660.

3. If the salaries and Establishments of the eight Superintending Engineers already appointed are to be passed in next month, in addition to those of District Engineers and Range Officers at the rates allowed prior to 30th April 1863, the excess will become greater by more than 8,000 Rupees, which will be the monthly increase by this measure after giving due allowance for the reductions in the Chief and Deputy Chief Engineer's Establishments, as will be seen from the Statement of increases and decreases furnished on the 27th instant.

4. The only set off against the large excess above alluded to is the reduction by dispensing with Sub-Overseers which will make a saving of less than 8,000 Rupees.

5. As under the orders in the Circulars Nos. 6 and 129 of 1862, from the Government of India, particularly those in Rule XV of those laid down by that Government in the first mentioned Circular "no increase in any year beyond the Budget grant for that purpose is

"permitted except upon a re-consideration of the Budget by the Government of India," I have deemed it proper to submit the present reference for the special orders of Government, prior to passing any salary for this month.

No. 111. ORDER THEREON, 5th June 1863, No. 1,432.

The Controller and Auditor of Public Works Accounts is requested to continue passing the Establishment charges referred to by him until further orders. Application will hereafter be made to the Government of India for a special grant to cover the sum passed in excess of the amount provided for Establishments in the current year's Budget.
