From The Ag. District Engineer Madras
To The Deputy Chief Engineer Southern Circle

Sir, In reply to Miscellaneous Circular
N^o. XXXIX of the 3rd ultimo I have the honor to
state that the practice of extracting from Ryots
within engagements to secure the increase of Revenue
expected from the repair of works of Irrigation
is one that would seem to belong to a former,
and less enlightened system of administration
than that in force at the present day.

I fully concur in the opinions
expressed by the Ag. Collector of North Arcot
with respect to the spontaneous utilization of
water when supplied to Ryots at the expense
of Government.

23rd April 1863.

From Captain L. Parbro
Acting District Engineer
Tinnevely

To
The Deputy Chief Engineer
Southern Circle.

Sir
With reference to Miscellaneous
Circular No. XXXIX of the 3rd February 1863.
regarding the necessity of taking such
steps for the increase of Cultivation on
repairs being made to irrigation works
at the expense of Government.

2 I have the honor to inform you
that on consulting with the Collector on
the subject he informs me that the
Applications of parties for improvements to
irrigation works are sufficient guarantee
for payment of the promised increase of revenue
in event of such lands being left uncultivated
through neglect of the Ryots.

3 Under these circumstances I think that
the two last clauses of para. 37. Chapter V of
the P. W. Code might be omitted.
