No. 365. Proceedings of the Madras Government, dated 16th June 1863, No. 1,560 :—

1. Representations are frequently made to Government by the Local Officers that funds are not placed at their disposal in time for expenditure during the month for which they are allotted. As the delay complained of is owing, in a very great measure, to the irregularity with which the District Estimates are submitted, the Superintending Engineers are requested to call the particular attention of the Officers under them to the Order of 2nd May last, No. 1,116, and to arrange for the Estimates reaching this Department before the 15th of each month.

2. In several Districts, the requirements of the next two months are omitted to be entered at the foot of the Estimate. This omission should in future be supplied, and the separate monthly Estimate for three months discontinued.
