*Proceedings of the Madras Government, Public Works Department,
25th June 1863.*

No. 593. Read the following letter from Captain O. W. S. CHAMBERS, R. E., Superintending Engineer 1st Division, to Colonel W. I. BIRDWOOD, R. E., Secretary to Government, Department Public Works, dated Walahair, 9th June 1863, No. 189 :—

SIR,

* No. 1,248 of 18th May 1863.

1. In the supplemental grant of 10 lacs of Rupees notified in G. O. as per margin,* there is an entry allotting 6,220 Rupees for

the construction of a Tálug Cutcherry at Ramachendrapúr in the Godavery District, and on this head I request information.

2. Three estimates for Tálug Cutcheries at Ramachendrapúr, Amlapúr and Nursapúr, were submitted to the Central Office by the Acting District Engineer, Godavery, on the 28th January 1862.

3. Of these one only, that for Amlapúr, was sanctioned by Government in their Order No. 2,140, of 6th September 1862; and on this work up to the first instant Rupees 773 have been expended.

4. Yet that for Ramachendrapúr appears now in the supplemental list of works to be executed from the grant of 10 lacs.

5. Is this an additional sanction? Or is it a mistake in the name of the Tálug?

No. 594.

ORDER THEREON, 25th June 1863, No. 1,676.

Procs. dated 6th February 1863, No. 317, paragraphs 14, 15.
Do. 18th May „ „ 1,248, paragraph 2.

1. The Superintending Engineer 1st Division will observe on reference to the orders as per margin that the work referred to by him, viz., the Tálug Cutcherry at Ramachendrapúr, was entered in the supplemental list as one of the works which not having yet been sanctioned, could be proceeded with only after the estimates have been approved. Certain information was called for regarding the Ramachendrapúr Tálug Cutcherry in the Revenue Department in Proceedings dated 2nd June 1862, No. 1,212, but the reply of the Deputy Chief Engineer, Northern Circle, to that Order had reference only to the Amlapúr Tálug Cutcherry, which alone was, therefore, sanctioned.† Captain Chambers will be good enough to furnish the required information with regard to the Cutcheries proposed at the other stations.‡

Public Works Proceedings, 7th June 1862, No. 1,293.

† Vide Procs. Rev. Dept., 30th Aug. 1862, No. 1,851.

‡ Ramachendrapúr.
Nursapúr.

2. The Amlapúr Cutcherry is entered in the Superintending Engineer's Statement of incomplete works up to 30th April 1863, and the question of providing funds for it will be considered when that Statement is under disposal.
