*Proceedings of the Madras Government, Public Works Department,
16th July 1863.*

No. 375. Read the following letter from Captain H. L. PRENDERGAST, R. E., Acting Superintending Engineer 4th Division, to Colonel W. I. BIRDWOOD, R. E., Secretary to Government, Public Works Department, dated Madras, 29th June 1863, No. 859 :—

SIR,

1 Letter No. 2,690, dated 16th April 1863.
1 Plan.
1 Abstract Estimate.

1. I have the honor to submit for the orders of Government an Estimate of Rupees 1,200, for constructing two new calingulahs, and repairing the bund and sluices, of the Tagaracoopum tank, in the North Arcot District.

2. This is another of the works commenced by Mr. Dopping without sanction, and subsequently continued by Captain Vertue on the grounds that it was emergent, and that any tolerable large fresh in the Poiney river would endanger the tank in its present condition. Up to the end of April 1863 the expenditure amounted to Rupees 439, and the balance of the Estimate Rupees 761 I recommend may be sanctioned from the Reserve Fund of the current official year.

No. 376. ORDER THEREON, 16th July 1863, No. 1,910.

1. The Estimate is sanctioned.

• Rupees 860.

† See G. O. No. 1,748, dated 30th July 1863.

2. The Superintending Engineer 4th Division will state the source from which the further amount required for the repair* of the Tank can be met. The charge cannot be debited to the Reserve Fund.†

3. Captain Prendergast is also requested to report how much of the sum of Rupees 761, referred to in paragraph 2, is for the new‡ Calingulahs. On the receipt of this information the Accountant General will be requested to place the amount at his disposal from the Reserve Fund of the current year.

‡ Estimate Rupees 340.

(Signed) W. I. BIRDWOOD, Colonel, R. E.,
Secretary to Government.

Work - Constructing line near Ahingulake and repairing the bend and curve of Agnacerofum
22 Sept. 1906.
