*Proceedings of the Madras Government, Public Works Department,
16th July 1863.*

No. 377. Read the following letter from Captain H. L. PRENDERGAST, R. E., Acting
Superintending Engineer 4th Division, to Colonel W. I. BIRDWOOD, R. E., Secre-
tary to Government, Public Works Department, dated Madras, 29th June 1863,
No. 857:—

SIR,

- 1 Abstract Estimate.
- 1 Plan.
- 1 Specification.
- 1 Letter dated 3rd March 1863,
No. 2,450.
- 1 Do. dated 24th June 1863,
No. 234.

1. On the 3rd March last Mr. Dopping, when acting as
District Engineer North Arcot, submitted the accompanying
Estimate of Rupees 320 for repairing and improving the
Calingulah of the Maicherry Pullum Tank, and reported that
as it was extremely advisable that the work should be put in
good order before the next wet season, he had taken on himself
the responsibility of ordering its commencement; but I now learn from the Officer in charge of
the District, that there has been no expenditure thereon up to the 30th April 1863.

2. I have therefore the honor to recommend that the full amount of the Estimate,
Rupees 320, may be sanctioned from the Reserve Fund of this year; it appearing, from the
description given of the condition of the work, in the accompanying specification, very desirable
that it should be repaired as soon as possible.

3. This work together with the two noted below, were inadvertently omitted from the
list submitted with my letter No. 693 of the 18th June 1863.

	Estimate.	Expended up to 30th April 1863.	Balance required.	
	RS. 1,200	RS. 439	RS. 761	Vide letter No. —, dated — June 1863

Widening and improving the branch Channel of the Cud- doopentangle Tank.				

No. 378. ORDER THEREON, 16th July 1863, No. 1,911.

The Estimate of Rupees 320 is sanctioned; but as it
would be irregular* to debit the cost of the work, being repairs,
to the Reserve Fund, the Superintending Engineer will report
from what other fund the charge can be met.

(Signed) W. I. BIRDWOOD, Colonel, R. E.,
Secretary to Government.
