Diary of the Superintending Engineer & Division for the Month of August 1863.

Date	Where present	How employed	What work inspected	Under Charge of what Office	Remarks
15	at Panama	Current duties -	Lock at Panama.	Superintendent of the Panama Canal	Lock at Panama. The Chamber floor nearly completed. The side of the lock is now in line with the side of the canal.

The work at the lock is progressing well. The Chamber floor is nearly completed. The side of the lock is now in line with the side of the canal. The work at the lock is progressing well. The Chamber floor is nearly completed. The side of the lock is now in line with the side of the canal. The work at the lock is progressing well. The Chamber floor is nearly completed. The side of the lock is now in line with the side of the canal.

taken up - probably not under 15000 tons. The modification of the Dorygrella salmure is consuming very little. It was somewhat apprehensive of the work standing, as the water was like through before the last time in the Canal. Carrying the supply to the side of the canal had become properly consolidated. The water in the canal is now in line with the side of the canal. The work at the lock is progressing well. The Chamber floor is nearly completed. The side of the lock is now in line with the side of the canal.

The work at the lock is progressing well. The Chamber floor is nearly completed. The side of the lock is now in line with the side of the canal. The work at the lock is progressing well. The Chamber floor is nearly completed. The side of the lock is now in line with the side of the canal.

16	at home		Current duties - Look at Patterson.		Left edge and upper chamber floor nearly completed. Sills not finished. Sills shown in back not done. Lower sill completed.

[illegible]

at the foot of the Canal bank towards the west
bank side. Over channels for three locks
and also for taking up the wooden Staphorn
Bridges and the two approaches from the West
side, for getting them in by lifting and lay-
ing down the Counter-scarps which will be suffi-
cient for the passage of the largest Canal vessels
and which will be made secure and firm by
roadway 24 ft wide.

Saint Agnes and Agt. No party along the Manipulation Canal in
 progress. Except the dressing of ~~the~~ for the
 prospects for Rudamish. Left Bridge. New
 Head shown to the Pullman at Henderson, is
 used with good effect. The work has been re-
 markably finished, and the sides of the Channel
 have been protected by an extensive Rowd.

Date - Where present	How Employed - What Work Inspected -	Under Charge of what Officer -	Remarks -
15th Nov 1863	Current duties - Locky at Pinarroos -	Lieut. Edgewood Esq. - Engineer 32nd Regt.	Upper Chamber floor nearly completed. In two sides except dressing. Chamber walls raised $7\frac{1}{2}$ ft. above floor. Bathrooms and wing walls framed 4 to $5\frac{1}{2}$ ft. The Workmanship is remarkably good, Skelton looks kept methodically. Selected site for new head sluice to Butler's Cove, and a proposed channel not to Hudson's Bay - The Parapets of Hudson's Bay and Ashmun's Lock Bridges, which have been postponed for more urgent work, are now about to be proceeded with This work will be ready for reception of patients within a week, and another fortnight will be probably suffice to complete every thing. Workman- ship good. -
		Lieut. Edgewood Esq. - Engineer 32nd Regt.	Company with selection with a view to Car- rying out instructions of Government as conveyed in G. O. No 2255 dated 10th August 1863. Arranged that the last few of the Park walls
