MILITARY DEPARTMENT. .
PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following letter :—

From the Principal Inspector General Medical Department, Fort Saint George, 7th December 1863, No. 279; to the Secretary to Government, Military Department.

With reference to paragraph 2 of the Order of Government marginally noted,* I have the honor to state that the subject of the allotment of space in the General Hospital has received my incessant consideration, in consultation with the Inspector General of Hospitals and the Committee of which he was President, which was convened by His Excellency the Commander-in-Chief, at my suggestion, the Medical Officers in charge of the General Hospital, and the Engineer Officers in charge of the works; but I have not yet complied with the orders conveyed in Proceedings of Government of a former date,† though I have all the materials ready, as I waited to see the sick of the 69th Regiment occupy the newly completed upper-story; that I might judge of the space they will occupy, and the sub-divisions of the large Wards now existing which they may seem to require. In the meantime, no delay will be caused to the erection of main building, as the outer-walls will occupy the Engineers many months to come, and the internal sub-divisions may be carried out when they are completed. Delays in completing the fittings of the new upper-story have occurred, so that the sick of the Regiment have not yet moved in, but they will now shortly do so, and I shall then finally consider the subject and submit my opinions for the consideration of the Committee, which Government have been pleased to order the assembly of.

ORDER, No. 4031, 18th December 1863

The Governor in Council observes that the desired information regarding the additions and minor changes and arrangements required in the General Hospital, as called for in Proceedings of Government Public Department, marginally noted, must be supplied without any further delay, and the Principal Inspector General Medical Department is requested at the same time to report, as nearly as he can, the exact date on which the sick of the Regiment will be moved into the upper-story of the Hospital.

(True Extract.)

To the Principal Insp. Genl., Medl. Dept
" Public Works Department.
" Quarter Master General, for information.
