*Proceedings of the Madras Government, Revenue Department,
18th December 1863.*

No. 329. Read the following letter from Captain F. J. MOBERLY, R. E., Superintending Engineer, 8th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Department Public Works, dated Madura, 17th November 1863, No. 1,192:—

SIR,

2 Plans.
2 Estimates

I have the honor to forward Plan and Estimate for Sub-Magistrates' Cutcherry and subsidiary Jails to be erected at Tiroochooly, Moodoocolathoor, Chinnamanoor, Nellacottah,

Vadasundoor and Pulny Hills in the Madura District.

2. These have been drawn up by the Collector, they were forwarded to me on the 17th October 1863, I returned them as I considered them unfit for the purpose; the whole building is badly ventilated, and from the arrangement the Sub-Magistrate is liable to much interruption by prisoners confined close to him, who must, in going to and from confinement, pass through the people attending Court.

3. The prisons are only 7 feet wide and the doors are only 5 feet high. The Treasury has an opening to the open air. The walls must be raised, as there is no space left above the ventilator for flat arch and beams of roof.

4. I submitted at the same time a sketch of those which it was proposed to build in Tinnevely, very slightly altered from that previously approved by the Collector of that District.

5. As I received no reply I concluded that Mr. Levinge assented to the change; and entered the amount of my Estimate in the Budget. He has now returned the former plan adhering to his own opinion as to its fitness.

6. As the matter has come before me so late in the year, I have not had time to lay the subject before Government before, but disapproving of the arrangement proposed by the Collector, whose main objection to mine is the cost, I leave the matter for the decision of Government.

Referred to the Revenue Department for consideration.

Chepauk,
20th November 1863.

(Signed) C. A. ORR, Colonel, R. E.,
Secretary to Government, D.P.W.

N. 330. ORDER THEREON, 18th December 1863, No. 2,330

The Government give the preference to Captain Moberly's plan as providing more, sight commodious and durable buildings though of course at a greater expense.
