The Division is still in a very unsettled state owing to the non arrival of Captain Fisher. The Supervisors Bance, Ramayyah, Kummur, Basler and Supershami. In the Madras District works are progressing satisfactorily. With the balance of the estimate lately placed at my disposal I shall be able to complete the Co. d. d. ap. and Madras road as far as Kodur, 56 miles South of Co. d. d. ap., before the railway is opened to Kodur. To repair the worst portions between Kodur and Kallapalle. On Gundlupet. A bridge across the bridge of 4 arches of 30 feet span each. soon be completed, several other wells have been built and metalling is in progress. The road from Co. d. d. ap. towards Marut, Bellary and Kallor are being metalled and the work is good. In the Bellary District, the expenditure has hitherto been small, the work at the Bellary Barracks having been stopped on which Rs 78460 are to be expended or more than 1/3 of the total allotment of the District. On the 2 August, an arch of 50 feet span was completed to carry water from one of the sluices of the Singanamalla tank over the puppet stream from one of the Kallapalle, full of fish being metalled, a false statement of the cause of the accident has been submitted by Co. d. d. ap. Raja Raja in charge of the work. A full report has been furnished to Government on the 3rd instant. The road from Bellary to the Co. d. d. ap. frontier is progressing satisfactorily. In the Marut District the bridge over the Mandur near Mandur will soon be completed, the road from Mandur to the Co. d. d. ap. frontier is being made, the road on the Mantur Panama suffered seriously from heavy rains at the commencement of the month, strong and heavy rain fell on the 1st of the month. On the 1st of the month the road was cleared at once, but the difficulty of procuring labour for that day, especially at this season, is very great.

great. The new system of drawing pay has added greatly to my ^{office} work, last month I issued no less than 70 cheques on account of pay, all allowances and as each I extract paper 3 times through my office the work is increased in a way which could not have been intended by the Commission.

The new system of drawing funds for Public Works Office is most complicated, in addition to the letters of credit signed by the Collector, the Sd. Eng. Engineer issues cheques in favor of Range Officers, so that the Holders are completely puzzled, and do not understand the meaning of their receiving a letter of credit signed by the Collector and a cheque signed by the Sd. Eng. Engineer for one object. Since the 1st May the system of drawing money for Public Works Office is

and the same object. Since the
has been rendered ascripted, as it has formerly, simple.

Memorandum
for Sept 1863

Barrack Master's Office
Fort St. George
20th Aug 1863.

Circular

The Barrack Master has the honor to request that Heads of Offices and Departments will be good enough to furnish him with a list of the probable repairs and exchange of Office furniture for the year 1864-65 by the 20th Proximo to enable the Barrack Master to prepare and forward an Estimate to the Finance Department.

New demands should precede the previous sanction of Govt before they are entered in the list.
