G.O. No.	124	Press Mis.
253/254		
Dated	13-1-	1864.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
13th January 1864.*

No. 253. Read the following letter from Lieutenant-Colonel A. C. PEARS, Postmaster General, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 7th January 1864, No. 5,848:—

SIR,

In continuation of my letter No. 5,685 of the 29th ultimo, I have the honor to subjoin for the information of Government, copy of one to my address since received from the Superintending Engineer, 2nd Division, forwarding a report by the Executive Engineer on the state of a portion of the road in question.

From Lieutenant-Colonel J. C. ANDERSON, R. E., Superintending Engineer, 2nd Division, to Colonel A. C. PEARS, Postmaster General, Fort Saint George, dated Masulipatam, 28th December 1863, No. 49.

SIR,

I have the honor to forward copy of a report from Captain Moberly, Executive Engineer, 1st Class, on the state of Trunk Road No. 6, south of Nellore, referred to in my letter No. 35, dated 17th instant.

From Captain A. S. MOBERLY, R. E., Executive Engineer, 1st Class, Nellore District, to Lieutenant-Colonel J. C. ANDERSON, R. E., Superintending Engineer, 2nd Division, dated Guduru, 22nd December 1863, No. 309:—

SIR,

1. In reply to your letter No. 85 of the 17th instant, I beg to inform you that from the 33rd mile stone or northern limit of the Madras District, as also of the Runnigadu backwater, there exists no obstacle until you reach the 44th mile, just beyond the 43rd mile stone is a breach in the road where was formerly a tunnel of, I believe, three vents; an Estimate has been called for on several occasions and on the last occasion by myself in June, but as far as I can find out, no Plan or Estimate has been submitted. I shall be in that neighbourhood shortly, and will then submit a Plan and Estimate.

2. From this place as far as Nellore, there are no obstacles besides the Suloorpett and Soornamooki rivers, and the break in the 88.4 mile a double set of carts would only be required for a few days during the year.

3. To the north of Nellore the road is passable during the greater part of the year as far as the Musanur valley, but there are portions in the Nellore Range in, if I remember rightly, the 125th and 126th miles, which require completing, and where there are large gaps for bridges and tunnels, these might be finished in a few months, and then with a boat at the Pydairu river the road would be passable throughout the year.

4. As regards the Musanur valley I think that the plan you suggest could be easily carried out, beyond Tettoo I do not know the road and so am unable to give any opinion.

(True Copy.)

(Signed) J. C. ANDERSON, Lieut.-Colonel, R. E.,
Superintending Engineer, 2nd Division.

(True Copy.)

(Signed) A. C. PEARS, Lieut.-Colonel,
Postmaster General.

ORDER THEREON, 13th January 1864, No. 124.

No. 254.

Ordered to be recorded.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

Madras
POSTMASTER GENERAL'S OFFICE,
7th January 1864.
