T

*Proceedings of the Madras Government, Public Works Department,
15th January 1864.*

No. 304. Read the following letter from Captain O. W. S. CHAMBERS, R. E., Superintending Engineer, 1st Division, to Colonel C. A. ORR, R. E., Secretary to Government, Department Public Works, dated Waltair, 17th December 1863, No. 1,972:—

SIR,

1 Bill.
1 Estimate.
1 Letter.

1. I do myself the honor of requesting authority from Government to appropriate Rupees 206-8-5 from the Repair Funds of the Godavery District, sub-head Accommodation for Troops, for the payment of the accompanying Bill for cleaning two Brickmaking machines, last used for making bricks for the Sapper Barracks at Dowlaishweram.

2. By Major Stoddard's explanatory letter* which accompanies this, and by Mr. E. Merrill's Estimate, also attached, it appears that in September 1862 the then District Engineer under the powers vested in him by the Chief Engineer's Circular No. 72 of 16th January 1862, being able to spend 100 Rupees on the repair of any machine without submitting an Estimate, ordered the two brick machines in question to be put in order at a cost of 90 Rupees each, their value being each 944 Rupees.

3. On execution, the repairs came to somewhat more than was anticipated, hence this explanation.

No. 305. ORDER THEREON, 15th January 1864, No. 150.

1. The Government sanctions the Bill submitted with this letter amounting to Rupees 206-8-5, and authorizes the amount being met from the sum set apart for "Stores."

2. The Superintending Engineer will be requested to report the manner in which it is proposed to utilize the Brickmaking Machines which have now been repaired. Captain Chambers will also report whether the machines can be advantageously worked in the Godavery or whether they can be spared for use in any other District in which they may be more in demand.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 1st Division.
" Controller and Auditor of Public Works Accounts.
" Accountant General.

1863.

and by Mr. E. Merrill's Estimate,
also attached, it appears that in
September 1862, the then District
Engineer under the powers vested
in him by the Chief Engineer's Cir-
-cular No. 42 of 16th January 1862,
being able to spend 100 Rs. on the
repair of any machine without sub-
-mitting an Estimate, ordered the
2 Brick machines in question to
be put in order at a cost of 90 Rs.
each, their value being each 944 Rs.

3. On execution, the repairs came
to somewhat more than was an-
-ticipated, hence this explanation.
