MILITARY DEPARTMENT.
PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers :—
From the Officiating Principal Inspector General Medical Department, Fort Saint George,
24th June 1864, No. 193; to the Secretary to Government, Military Department, Fort Saint
George.

I have the honor to forward a series of most useful, as well as of beautiful
Diagrams prepared by Assistant Surgeon Arnold Smith, M. D., attached to the
Hyderabad Field Force.

2. Doctor Smith has for sometime voluntarily taken charge of the Meteorological Department at Secunderabad, and one of the first results are these Diagrams, shewing the amount of disease not only dependent upon atmospherical changes, but likewise all diseases. The mortality would also have been shewn, but during the first quarter of this year, only one casualty occurred in the whole of the Europeans of the Hyderabad Subsidiary Force. The Diagrams give also the daily Meteorological results of the quarter.

3. One interesting feature is the contrast shewn by them between the amount of disease in Secunderabad, and in Trimulgherry—the lines shew to how much greater an extent disease prevailed in the latter than in the former Station.

4. These Diagrams, if continued, will afford most important information as to the connection between Meteorological Phenomena and disease.

5. To save manual labor and to ensure correctness, Dr. Arnold Smith has requested that the Forms might be lithographed, and for this I respectfully solicit the sanction of Government.

No. 207.
