*Proceedings of the Madras Government, Public Works Department,
17th August 1864.*

No. 350. Read the following Circular Memorandum from Colonel R. STRACHEY, R. E., Secretary to the Government of India, to Local Governments and Administrations, dated Public Works Department, Simla, 8th July 1864, No. 42:—

SIR

1. In the standard design for a privy for two Companies of European Troops, circulated for adoption with Public Works Department Circular No. 40, dated 27th June 1863, there is a mistake in regard to the width of the aperture in which the pans fit. This should be the same as the diameter of the pan so as to allow of no lateral play.

2. Pending further orders, the use of sand for the floors of privies may be confined to the buildings in which it has been already introduced; and no new permanent floors should be broken up for the introduction of sand flooring.

(Signed) E. C. S. WILLIAMS, Captain, R. E.,
Under Secy. to the Govt. of India.

Copy forwarded to the Secretary to the Government of Madras, in the Public Works Department for information.

No 351.
