MILITARY DEPARTMENT.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers :—

Memorandum from the Quarter Master General, Head Quarters, Ootacamund, 9th August 1864, No. 2880 : to the Secretary to Government, Military Department.

Forwarded to Government, with the approval of His Excellency the Commander-in-Chief.

From the Officer Commanding Centre Division, Head Quarters, Madras, 30th July 1864, No. 661 : to the Quarter Master General, Head Quarters, Ootacamund.

I have the honor to forward, for submission to His Excellency the Commander-in-Chief, Plan and Estimates* for the erection of New Cook-houses for the Regiment in Fort Saint George. In explanation of the necessity for the expenditure, I would represent that the present Cook-houses are not adapted for the more wholesome mode of preparing the Soldiers' meals. The present Cook-houses erected for the present more wholesome mode of preparing the Soldiers' meals. The Cook Sergeant and Orderlies cannot remain in the Building, owing to the smoke which cannot be rectified : from want of space and light the preparations for cooking are defective and not clean. The proposed site will obviate all these objections. The original defective erection of these Ranges even now require alterations and remedies all of which are provided for in the present estimate. The situation which His Excellency approved of last April, is airy and immediately over the Casemate at present used—I would suggest, that for the sake of cleanliness and economy in labour and Cooking Utensils, that pipes be continued from the present water supply connected with a forcing Pump and Cistern, (the latter placed contiguous to the proposed Cook-room) thus obviating the conveyance of water from the water-cock in the square in all weathers as at present. The Engineer Officer in charge of the works in the Fort states, that he has a Pump now in Store, and the additional expense incurred will be for pipes and cistern with the erection of the pump.

ORDER, No. 2880, 20th August 1864.

Approved.
