Public Works DEPARTMENT.

G.O. No. <u>2461</u>	Press
<u>552-553</u>	Mis-
Dated <u>26-8-</u>	<u>18 64.</u>

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
26th August 1864.*

No. 552. Read the following letter from Lieutenant-Colonel O. W. S. CHAMBERS, R. E.,
Superintending Engineer, 1st Division, to Colonel C. A. ORR, R. E., Secretary to
Government, Department Public Works, dated Waltair, 9th August 1864, No. 527:—

SIR,

• No. 112 of 4th August 1864.

1. I beg to submit for information a
letter* from Major Stoddard regarding certain

machines lying in the Yard of the Workshops at Dowlaishweram.

2. I request authority to sell by auction the snatch blocks reported unserviceable.
3. I have taken upon myself to order the lathe, the drilling machine, the model engines and the beam scale, all the property of the Workshops, to be disposed of at outcry.
4. Permission is requested to sell the 12-horse power engine and boiler that formerly belonged to the "Peri," reported unserviceable.
5. The boiler of the engine to which the mill for grinding chunam is attached, is quite worn out: permission is requested to sell the boiler and send the engine to Madras. This mill has proved extremely useful on several large works, and, in a District where the cost of labor is high, can apparently be made use of with much advantage.
6. The permission of Government is likewise requested to the brick-making machine being returned into Store at Madras. It was lately used by Mr. Rundall at the new Cutcherry at Amalapore; but the bricks turned out proved very expensive.

From Major J. STODDARD, Executive Engineer, Godavery District, to Lieutenant-Colonel
O. W. S. CHAMBERS, R. E., Superintending Engineer, 1st Division, dated Dow-
laishweram, 4th August 1864, No. 112.

SIR,

	RS.	A.	P.	
2 Blocks, Snatch, 14 inches	83	3	0	1. The machines enumerated marginally,
1 Power Lathe, wooden bed	300	0	0	and at present borne on the Returns of the Go-
1 Country Drilling Machine, wooden ..	80	0	0	vernment Workshop, being quite unserviceable,
4 Brass Model Engines.	150	0	0	I have the honor to request permission for dis-
1 Old Beam Scale	15	0	0	posing of them by public outcry and writing
				off the difference to "Profit and Loss."

2. The first of the above mentioned articles, viz., two snatch blocks, were received from the Presidency Public Works Stores. All the others belong to the Workshop, having been made up or purchased out of its funds.

3. Besides the foregoing unserviceable machines, there is a steam engine and boiler of 12-horse power lying in the Workshop, which belonged to the late Canal steamer "Peri," and brought on the Workshop Returns at Rupees 2,600. I have already recommended the sale of these in my Statement dated 7th June 1864, and would here beg again to repeat that recommendation.

4. I take this opportunity of again drawing attention to the "Portable Steam Engine and Mortar-grinding machine," valued at 2,200 at present in the Workshop, and regarding which I have already reported, *vide* my Statement dated 7th June 1864, that the engine should either be provided with a new boiler or be sold. Also to the two brick-making machines with pug mills valued at 1,887-3-10, which as I suggested in the same communication should be sent to some other District where they might be required since they were not likely to be ever wanted here.

5. I beg that something may be done quickly regarding the above machines, as they are taking up valuable room in the Workshop buildings, already too contracted for our necessities.

Proceedings of the Madras Government, Public Works Department,
26th August 1864.

No. 553.

ORDER THEREON, 26th August 1864, No. 2,461.

1. The Government grant authority for the sale of the snatch blocks, the 12-horse power engine and boiler, and the boiler of the mortar-grinding machine, referred to in paragraphs 2, 4 and 5 of Colonel Chambers' letter.
2. The proceeding reported in paragraph 3 is approved.
3. Colonel Chambers will communicate with the Superintending Engineer, 2nd Division, and report whether the engine, alluded to in paragraph 5, cannot be usefully employed in the Kistna District.
4. Before according the permission applied for in paragraph 6, the Government request that a report may be submitted upon the quality and cost of the bricks manufactured as compared with those sold in the District.

From

Major A. Stoddard

Executive Engineer, 2nd Division

To Lieut Colonel A. W. S. Chambers R.E.

Superintending Engineer, 1st Division

at

Waltair

The Machines enumerated

marginally and at present borne on the

2 Blocks Snatch 14" B. 83-3- Returns of the Government
1 Power Lathe wooden bed 300- Workshop, being quite
1 Country Drilling Machine } 80- unserviceable I have
wooden
4 Brass Model Engines. 150- the honor to request
1 Old Beam Scale- 15- permission for disposing
of them by Public Auction and writing
off the difference to "Profit & Loss"

2 The first of the above mentioned
articles viz 2 Snatch Blocks were received
from the Presidency Public Works Stores -
all the others belong to the Workshop,
having been made up or purchased out
of its funds.

3 Besides the foregoing unserviceable
machines, there is a Steam Engine & Boiler
of

of 12 H.P. lying in the Workshop, which
belonged to the late Canal Steamer
"Pere" and brought in the Workshop
Returns at \$2600. I have already
recommended the sale of these in
my statement dated 7 June 1884 and
might have again to repeat
that recommendation.

112 I take this opportunity
of again drawing attention to the
Portable Steam Engine and Mortar
grinding Machine valued at \$2200
at present in the Workshop and
regarding which I have already
reported. Vide my statement dated 7 June 1884
that the Engine should either be
provided with a new boiler or
be sold. Also to the 2 Brick-
making Machines with Pug Mills
valued at 1887-3-10 which were
suggested in the same communication
should be sent to some other
District where they might be
required since they were not
likely to be ever wanted here.

I beg that something may be
done quickly regarding the above
machines, as they are taking up
valuable room in the Workshop
Buildings, already too contracted for
our necessities.
