*Proceedings of the Madras Government, Public Works Department,
13th September 1864.*

No. 225. Read the following letter from Colonel A. J. M. BOILEAU, R. E., Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 3rd September 1864, No. 2,589 :—

SIR,

1. In July last I received from the Collector of Madras with his approval an estimate, Rupees 440, for re-constructing the sluice of the Agarum tank in the Saidapett Taluq, but as the whole of the amount, Rupees 4,000, set apart in G. O. No. 2,126, dated 25th July 1864, for Minor New Works had been appropriated, the estimate was kept in abeyance with a view to its being executed next year, when funds sufficient for the purpose would be available.

2. The Collector has, however, just recommended "that immediate orders may be issued" for the re-construction of the sluice "before the monsoon commences, as otherwise a heavy loss in the revenue may result."

Under these circumstances I have authorized the execution of the work from the sum Rupees 750, allotted in the G. O. above quoted for Minor Military Works, of which Rupees 455 remain available for the purpose.

3. This arrangement I trust will meet with the approval of Government.

No. 226. ORDER THEREON, 13th September 1864, No. 2,639.

The proceedings of the Superintending Engineer, 4th Division, reported in this letter are approved.
