Proceedings of the Madras Government, Public Works Department, 13th September 1864.

No. 241. Read the following letter from Lieutenant-Colonel G. W. WALKER, R. E., Superintending Engineer, 7th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Department Public Works, dated Coimbatore, 20th August 1864, No. 92:—

SIR,

I have the honor to submit for sanction Plan and Estimate of Rupees 800, for restoring a small bridge on the road from Palghaut to Calicut viâ Moondoor, the former structure having given way during the rains of last month, owing as it is stated to defective foundations. But such defect may have been owing to insufficient water-way causing undue scour; and I dare say the arch was not originally well enough built for its design, its rise having been only one-fourth the span. No exact record occurs of its original cost, or date of erection, but I should imagine the latter to have been within the last five years and the former about the sum now asked for the new drain. The cost being small I venture to hope it may be sanctioned for immediate execution, from such savings as may hereafter be made and reported from the allotments of the current year.

The undersigned has the honor to request that the Superintending Engineer, 7th Division, will be good enough to report the particular source from which the cost of restoring the small bridge on the road from Palghaut to Calicut is to be met, as without this information, the prosecution of the work cannot be authorized.

MEMORANDUM.

The undersigned is unable to report any particular source at present, and will therefore withdraw his application for funds. But the Estimate, &c., may meanwhile be sanctioned for execution when specific funds are available, which will be reported.
