*Proceedings of the Madras Government, Public Works Department,
13th September 1864.*

No. 243. Read the following Memorandum from the Consulting Engineer for Irrigation and Canal Company, to the Secretary to Government, Public Works Department, dated 31st August 1864, No. 89:—

Read the following letter from F. H. BRUNTON, Esq., Agent and Manager, Madras Irrigation and Canal Company, to the Consulting Engineer for Irrigation and Canal Company, dated Madras, 31st August 1864, No. 1,083.

SIR,

1. In reply to your communication of yesterday's date, I have the honor to state that no report of the state of the Soonkasala Anicut has reached me since the 18th instant, when I learned that Colonel Cotton had had an opportunity of examining it, the river having subsided to 1½ foot over the work and had found that *except in one place* not a stone was disturbed through its whole length. This was evidently the regularity of the over-fall.

2. In the part where a sloping apron had been added this year, damage had been done, the apron had been carried away and from the form of the fall of water there, Colonel Cotton judged that the wall had been undermined and had fallen, forming a lower weir about 25 yards in length.

3. Until the water should have subsided no further examination could be made, but the escape was not likely to interfere with the supply of water required for this season.

4. Whenever I receive further intelligence I will communicate it to you.

(True Copy.)

(Signed) J. MULLINS, Captain, R. E.,

Cons. Engr. for I. and C. Company.

1. Submitted to Government for information in continuation of letter No. 45 of the 23rd July 1864.

2. The part which has given way is that referred to in the Consulting Engineer's letter No. 40 of 2nd July 1864, paragraph 5.

(Signed) J. MULLINS, Captain R. E.,

Cons. Engr. for I. and C. Company.

No. 244.

ORDER THEREON, 13th September 1864, No. 2,618.

Ordered to be recorded.

(True Extract.)

Madras Irrigation and Canal Compt.
Madras, 31st August 1884.

To,
The Agent & Manager, M. I. & C. Co.
The Consulting Engineer, M. I. & C. Co.

1. In reply to your communication of yesterday date, I have the honor to state that no Report of the state of the Sontakala Anicut has reached me since the 18th instant when I learned that Colonel Cotton had had an opportunity of examining it, the river having subsided to $1\frac{1}{2}$ foot over the work and had found that except in one place not a stone was disturbed through its whole length. This was evident by the regularity of the overfall.

2. In the part where a sloping apron had been added this year, damage had been done, the apron had been carried away and from the form of the fall of water there, Colonel Cotton judged that the wall had been undermined and had fallen, forming a lower weir about 25 yards in length.

3. Until the water should have subsided no further examination could be made, but the escape was not likely to interfere with the supply of water required for this season.

4. Whenever I receive further intelligence I will communicate it to you.

I have the honor to be,
Signed J. H. Brumby,
Agent & Manager.
