*Proceedings of the Madras Government, Public Works Department,
22nd September 1864.*

No. 497. Read the following Proceedings of the Board of Revenue, dated 13th September 1864.
Read the following letter from P. GRANT, Esq., Collector of Coimbatore, to W. HUDLE-
STON, Esq., Secretary to the Board of Revenue, dated Ootacamund, 7th September
1864, No. 189 :—

SIR,

1. I beg to forward for the information of the Board of Revenue original Proceedings of Government, Public Works Department, dated 1st September 1864, received this day. The Board will observe that funds are not forthcoming for the repair of certain tanks and channels which cannot be neglected, without the risk of materially affecting the land revenue, as well as the private interests of the people concerned. The north-east monsoon is now approaching, and if the works are left in their present condition, the chances are that they will be very much damaged, and that their future repair will entail a heavy outlay. The subject deserves early attention.

2. I beg that the Proceedings of Government may be returned.

1. Ordered to be submitted to Government with reference to their Order in the Department Public Works, dated 1st September 1864, No. 2,530.

2. The Board trust that means may be devised for providing the trifling amount required for these works in which revenue is dependant.

No. 498.

ORDER THEREON, 22nd September 1864, No. 2,763.

As the Government have no funds at their disposal, and as no intimation has been received from the local Officers of any portion of the repair allotments for the current year being available for transfer, the works referred to by the Board of Revenue must be deferred, unless the Superintending Engineer can provide the sum required from the Budget assignments for the Districts in his Division. In this case the Government will be prepared to sanction his proposals, if within their power, or to submit them to the Government of India, for approval.
