*Proceedings of the Madras Government, Public Works Department,
11th October 1864.*

No. 166. Read the following letter from Colonel R. STRACHEY, R. E., Secretary to the Government of India, Public Works Department, to the Secretary to the Government of Madras, in the Public Works Department, dated Simla, 20th September 1864, No. 841½ C-4,628 :—

SIR,

1. Major F. Applegath, of the Madras Staff Corps, lately submitted to this Government a description of his invention of iron anicuts and iron under-sluices for the extension of irrigation and convenience of traffic. The descriptions and specifications were, however, of too general a nature to admit of a proper opinion being found of the merits of the invention, and Major Applegath has therefore been informed that if he will submit, through the Madras Government, some project of a definite kind with proper plans and estimates, it will receive the favorable consideration of the Government of India.

2. Should Major Applegath bring forward any such project, I am to request that the Government of India may be favored with the views of the Madras Government on the subject.

No. 167. ORDER THEREON, 11th October 1864, No. 2,919.

Ordered to be recorded.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.
