work were accordingly called for, which I have now the honor to submit for sanction.

2. The estimate, Rupees 1,300, which has been approved of by the Reverend the Commissary of the Diocese and the Trustees, provides for attaching Lightning Conductors to the Church in accordance with the principles laid down in the War Office Circular on the subject; the correctness of which, as remarked by Major Prendergast, has been exemplified by the course taken by the Lightning in the case under notice.

3. His report together with one on the same subject from Captain Rogers, Executive Engineer, I enclose, as I believe Government are desirous of being placed in possession of all information which can be obtained on such matters.

4. I recommend that the estimate, Rupees 1,300, may be authorized for execution, the cost being met from a saving of equal amount which the Range Officer reports will be effected this year on the allotment, Rupees 85,100, for alterations and additions to the Horse Artillery Lines at the Mount to provide accommodation for two Batteries, as owing to some of the work connected therewith having been held in abeyance for further consideration, the full sum given for expenditure will not be required.

Referred to the Ecclesiastical Department.
