		Mis.
Dated	2-11	1864.

*Proceedings of the Madras Government, Public Works Department,
2nd November 1864.*

No. 48. Read the following letter from Colonel A. J. M. BOILEAU, R. E., Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 28th October 1864, No. 3,786:—

SIR,

1. I have the honor to submit, for the sanction of Government, a survey with estimates amounting in the aggregate to Rupees 2,610, for the following works in the Wallajah Range:—

Survey.
Abstract estimate, with specifications.

	rs.
(1.) Cutting a branch channel from south bank of the Mahindravady Channel at Poondi Samudrum... ..	800
(2.) Constructing division head-sluice to do.	550
(3.) Do. three irrigation sluices... ..	460
(4.) Restoring the bund of the Poondi Poondairy tank... ..	800

2. These works, while securing the safety of the Poondi large tank, and improving the supply of the Poondi Poondairy, Shamathanghy and Jadary tanks, situated between the Kaveri, paik tank and the Mahindravady Channel, will also very greatly benefit the tank last named as the surplus of the other tanks will be drained into it, and a valuable addition to its annual supply thus secured.

3. The Mahindravady Channel, moreover, stands in great need of relief at this point, as its width here is 12 yards; but a little further on at the Trunk No. 1, it is only 6 yards broad, so that it cannot receive the whole of the waters passing in at the head, and can well spare what it is proposed in the present project to draw off for the Poondi Poondairy, &c., tanks

4. The Collector of the District is much in favor of the project, and the Ryots of the Poondi Poondairy village are so anxious that the channel should be cut, that the Monegar has expressed his willingness to carry out the work at once and wait for payment until next year. There is, however, no necessity for this arrangement, a sufficient sum remains available of the Budget allotment for the Poiney project to meet the estimated cost, and as the Acting Collector concurs with me in the propriety of obtaining funds for the works in question from that source, I beg to recommend that sanction be given to the necessary transfer from the balance Rupees 14,977, remaining available of the Budget allotment Rupees 40,000.

5. The Executive Agent reports that the proposed expenditure will result in an increase of Rupees 331½ in the revenue, but the correctness of this I am unable to verify until the usual Ayacut Statement, which the Acting Collector has promised to furnish in due course, has been received in this Office.

6. At any rate that is a matter of very small consequence, as the work must be carried out on its own grounds, so I have requested the Range Officer to get on with it at once, a measure which I trust will meet with approval.

No. 49. ORDER THEREON, 2nd November 1864, No. 3,153.

1. The estimate of Rupees 2,610, submitted with this letter, is sanctioned.
2. Application will be made to the Government of India for sanction to the transfer of funds proposed in paragraph 4.
