**Proceedings of the Madras Government, Public Works Department,
10th November 1864.**

No. 183. Read the following letter from the Secretary to the Government of India, Public Works Department, to the Secretary to the Government of Madras, Public Works Department, dated Simla, 10th October 1864, No. 638A-5,103 :—

SIR,

1. I am directed to acknowledge receipt of your letters as per margin, applying for an additional Budget grant of Rupees 2,07,970 to be applied to the prosecution of certain works which are represented to be urgently required, and in reply to inform you as follows.

• No. 2,335, dated 16th August 1864.
" 2,504, " 30th " "

2. The Government of India recognizes the fact that the Budget estimate only provides for foreseen expenditure, with a reasonable margin for contingencies, and that unforeseen and unexpected requirements may present themselves during the course of the year. But such wants should, as far as practicable, be provided for from savings on the allotments granted for other items of expenditure, and it is only in extreme cases that an additional grant can be provided over and above that made at the commencement of the year.

3. Of the objects to which it is proposed to appropriate the grant asked for, the items, as

per margin, amounting in the aggregate to Rupees 73,787, appear to be such as though not requiring extraordinary sanction, being neither unforeseen nor urgent, and which every Government would wish to carry on to the extent to which it has funds, may properly be undertaken from savings on the Budget allotment, and the Governor General in Council sanctions the necessary transfer being made accordingly. The same observations will apply to the case of the Taluq Cutcherry at Pullampett, estimated to cost

7,300 Rupees, the commencement of which has been authorized in anticipation of orders of the Government of India. The remainder of the items, amounting to Rupees 1,26,883, may, in the opinion of His Excellency the Governor General in Council, be postponed without serious public inconvenience till next year, when they can be brought forward for sanction in the Budget estimate.

FORT SAINT GEORGE,
10th November 1864.

No. 185.

No. 3,222.

From

COLONEL C. A. ORR, R. E.,

Secretary to the Government of Fort Saint George, P. W. D.,

To

The Secretary to the Government of India, Public Works Department.

SIR,

1. I am directed by His Excellency the Governor in Council to acknowledge the receipt of your letter No. 633A-5,103, dated 10th October 1864, communicating the orders of the Government of India on the application submitted by this Government, for a further grant of Rupees 2,07,970, to admit of certain important Public Works, urgently required in this Presidency, being undertaken during the current official year.

2. Of the additional amount applied for, the Government of India state that Rupees 81,087 may be provided by transfers from Budget allotments, and that the balance, viz., Rupees 1,26,883, may be entered in the estimate for the next official year.

3. With reference to the remark that the Government of India recognize that the Budget estimate provides only for foreseen expenditure, and that unforeseen and unexpected requirements may be provided for from savings, I am to state that such savings will unquestionably be effected; but as at this season of the year it is not practicable to ascertain from what specific items they will be made, and as meanwhile no time is to be lost in proceeding with the works for which money is required, the grant of a *nominal* additional assignment is necessary, for the purpose of the appropriations being included in the Returns furnished to the Government of India.

4. At the close of every year, a large balance has remained unexpended from the Imperial allotment for this Presidency, and it is certain that, owing to the restrictions recently imposed upon Local Governments over the disposal, in detail, of the funds allotted for Public Works, the unspent balance on the 30th April next will be much larger than usual, and more than sufficient to cover the total additional assignment* applied for in Major Stewart's letters marginally noted.

* 5 lacs.
No. 2,335, 16th August 1864.
No. 2,074, 14 September 1864.

5. Under these circumstances, I am to solicit a re-consideration of the orders of the Government of India, contained in your letter under acknowledgment, and earnestly to request that the present application may be favorably viewed; and that the further grant, so urgently required, may be placed at the disposal of the Madras Government, and intimation given by Telegraph at an early date, to admit of arrangements being made by the local Officers for the vigorous prosecution of the works.

I have the honor to be,

Sir,

Your most obedient servant,
