Dated 15-11	1864.

*Proceedings of the Madras Government, Public Works Department,
15th November 1861.*

Read the following letters :—

No. 311. From Captain J. F. FISCHER, R. E., Controller of Public Works Accounts, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Chepauk, 8th November 1864, No. 1,593.

SIR,

I have the honor in forwarding the two bills indicated in the margin, to bring to the notice

Audit No. 866. Repaired north bank of Velliar, Rupees 250-5-1 for 1863-64.
Audit No. 867. Strengthening south bank of Velliar, Rupees 311-10-8 for 1862-63.

of Government, that from the certificates attached to each of these bills I observe the works have been executed to the amount of expenditure shown in bills; but it appears that

one of the works was carried out in a slovenly manner and of bad workmanship, and that it does not correspond with the estimate except in a very general way; and the other work appears to have been carried out very carelessly, and "most of the commonest acknowledged rules have been transgressed in the execution of the earthwork." I therefore submit them specially for the orders of Government with reference to paragraph 13, Chapter IV of the New Code.

No. 312. From Captain J. F. FISCHER, R. E., Controller of Public Works Accounts, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Chepauk, 8th November 1864, No. 1,592.

SIR,

I have the honor to submit the bill noted in the margin, from which it appears that Lieutenant Mead had reported specially by letter and

Audit No. 837. Final bill for Rupees 179 4-6 for 1862-63, received on the 3rd October 1864.
Flowing Ramparts and other improvements to Tranquebar Jail, estimate Rupees 1,200 sanctioned in G. O. No. 1,219, dated 26th September 1861.

in inspection list to the late District Engineer on the work being badly done to the floors. It is not known what notice was then taken by the then District Engineer, but as a long time

has elapsed since the completion of the work, and several changes have taken place in the District officials, I consider that no information can be gained by reference to the Superintending Engineer. I therefore submit the bill specially for the orders of Government with reference to paragraph 13, Chapter IV of the New Code.

No. 313. ORDER THEREON, 15th November 1864, No. 3,231.

Before passing orders on the Controller's letters above recorded, the Government request that the Superintending Engineer, 6th Division, will report the names of the parties who are responsible for the defects noticed in the certificates signed by Lieutenants Mead and Makgill.
