*Proceedings of the Madras Government, Public Works Department,
16th November 1861.*

No. 314. Read the following letter from Captain J. BEAN, R. E., Officiating Superintending Engineer, 6th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Tanjore, 7th November 1861, No. 1,910 :—

Sir,

Agreeably to Government Order No. 2,782, dated 24th September 1863, I have the honor to forward copy of the report* made by the Executive Engineer Trichinopoly on the state of the temporary European Barracks at that station.

* Dated 3rd November 1861.

Report on the five ranges of temporary European Infantry Barracks at Trichinopoly.

1. Since the submission of my report, dated 17th October 1863, the roof of Nos. 1 and 2 Barracks has been repaired and the brick flooring re-placed by stone, and these two ranges are now in good order.

2. The roof of No. 3 Barracks has also been repaired, and is now in good order with the exception of one beam which requires renewing.

3. The beams and purlins in the roof of Nos. 4 and 5 Barracks are in good order, but the greater portion of the bamboo rafters are decayed and worm eaten, and ought to be renewed, and the Coconut-wood lintels to the doors and windows in these two Barracks require to be re-placed by sound country wood planks.

4. The brick flooring in Barracks Nos. 3, 4, 5 is in bad order, and should be re-placed by stone.

5. The estimates, Rupees 15,500, for thorough repair to these buildings and substituting stone for brick in the flooring were sanctioned in G. O. No. 169 of 16th January 1861, but when they were under progress, orders were given to repair two only instead of five ranges in G. O. No. 967 of 19th March 1861, and by that time the roof of three and stone flooring to two ranges were completed for an expenditure of Rupees 6,031-15-4.

6. If the five ranges are to be occupied again the balance of the estimate will be needed to put them in good order.
