No. 50. Read the following letter from Colonel A. J. M. BOILEAU, R. E., Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 26th October 1864, No. 3,714:—

SIR,

1. In G. O. No. 3,113, dated 26th October 1863, sanction was given to the execution of an estimate amounting to Rupees 430 for constructing two wells for the security of the Copper Coins in the Treasury of the Collector's Cutcherry at Chittoor, North Arcot. Subsequent, however, to the commencement of the work, it was considered by the Revenue authorities that a better arrangement would be to enlarge the Treasury by adding to it two new rooms, the present rooms being "miserably small and ill-ventilated."

1 Plan.
1 Estimate, Rupees 430.
1 Letter No. 137, dated 4th May 1864.
1 Do. No. 251, dated 27th June 1864.

2. Orders were accordingly sent to the Executive Engineer for the preparation of the requisite plan and revised estimate, which have since been received and approved of by the Acting Collector, and which I have now the honor to submit for the sanction of Government.

3. The estimate provides not only for the construction of the two rooms in question, but also for a venetianed ventilator all round in the roof of the centre apartment of the Treasury buildings (the atmosphere of which Captain Chrystie reports was almost *stifling* when he visited it at 7 o'clock in the morning), and for repairs to the facing of the wall in the Cutcherry compound. The total cost of these works is estimated at Rupees 1,150, or Rupees 720 in excess of the original sanctioned amount, and I beg to recommend that the estimate may be authorized for execution, from the balance Rupees 5,930 remaining of the savings Rupees 12,000, reported in my letter No. 3,617 of the 22nd October 1864, as having been effected in the allotment Rupees 85,100 for the works in progress in the Horse Artillery Lines at Saint Thomas' Mount for the accommodation of two Field Batteries.

Deduct on account of sum recommended to be appropriated in letters Nos. 3,383 and 3,617, dated 6th and 22nd October 1864, for fitting Lamps & Conductors to the Coach at Saint Thomas' Mount and for works connected with the improvements of the Tukkolum Channel	4,700

4. There has been no actual outlay under the original estimate, Rupees 430, for the wells at the Chittoor Treasury, but Rupees 200 will have to be paid for teak-wood frames supplied for the work, the materials of which can, Captain Chrystie represents, be made available for the alterations now recommended. The only loss therefore will be the wastage in cutting up the wood again which may be charged to the amount for sundries, &c., entered in the revised estimate.
