*Proceedings of the Madras Government, Public Works Department,
18th November 1864.*

No. 375. Read the following letter from the Controller of Public Works Accounts :—

Appropriation Return for June 1864. | (Here enter 26th October 1864, No. 1,441.)

No. 376. ORDER THEREON, 18th November 1864, No. 3,313.

1. The paper recorded above is the Appropriation Return for June 1864, in three parts.

2. From the Abstract appended to the Return it is observed that Rupees 2,86,508 and Rupees 1,45,329 have been appropriated to Major and Minor works respectively, since the 1st May last. The appropriations under "Repairs" amounted to Rupees 6,92,561.

PART I.

3. Opposite to certain works under the head "Military" the following remark is entered : "From additions to Infantry Barracks at Cannanore, Item No. 18 of Budget estimate." On reference to G. O. No. 1,721, dated 13th June 1864, it is observed that funds for these works were sanctioned from the extra provision (Rupees 20,000) for that item in the Supplemental Budget.

4. The estimate for the Mundapetta Canal works is entered at Rupees 28,650, instead of Rupees 41,960, which is the amount sanctioned under date the 17th March 1864.

Proceedings No. 816.

5. The District in which the road from the Kodur Railway station to the high road from Cuddapah to Madras is situated should have been noted in the Return.

6. It is observed that the estimated cost of several works has been omitted by the Controller's Office, on the ground that funds for their execution were provided from the allotment for Minor works. Reference will be made to the Government of India to ascertain whether the course adopted is correct.

7. The unappropriated balance (Rupees 1,181-11-0) of the current year's allotment for the road from Heeramundalam to the Nowpadah Salt pans, in the Ganjam District, should have been exhibited in the Return.

PART II.

Two new wells at Bellary.—Channel, with subsidiary works, from a ruined tank on the boundary of the Bellary Cantonment.

Constructing the Mandapottah Canal.

The Controller has incorrectly inserted the sums allotted.

8. The estimated cost of the works marginally noted should have been entered in the column "Sanctioned estimate." The Controller has incorrectly inserted the sums allotted.

* Estimate Rupees 1,030, sanctioned in G. O. No. 1,195, dated 26th April 1864. Expenditure in 1863-64 authorized to be charged against the allotment for that year under the head "Minor New Works."

9. The new head sluice* to the Kurpár channel, in the Tanjore District, appears to have been proceeded with during the current year, without a specific allotment. The Superintending Engineer, 6th Division, will explain under what authority this has been done.

10. The estimate for the undermentioned work is entered at Rupees 72,800, or Rupees 1,931 less than the sum given in Colonel Boileau's letter No. 6,400, dated 20th April 1864, recorded in G. O. No. 1,259, dated 3rd May following. The cause of this difference should be explained :—

Forming approaches to the Madras Pier, and perfecting the accommodation between the Pier, the Beach road, and the Custom House.

11. The purchase money for Pugh's gardens is entered against the Presidency, instead of the Madras District.

12. The Controller will be requested to see that there is no unnecessary delay in carrying out the orders of the Government of India, communicated in G. O. No. 3,004, dated 19th October 1864, directing the entry, in the Appropriation Returns, of all sanctions for works estimated to cost less than 200 Rupees.

*Proceedings of the Madras Government, Public Works Department,
18th November 1864.*

PART III.

13. Appropriations made from maintenance grants for specific lines of communication are shewn in the Return, notwithstanding the orders of Government directing the omission of such items, pending the receipt of a reply to the reference made to the Government of India on the subject. Captain Fischer's attention will be drawn to those orders.

14. Ordered that the following letter be sent:—
