*Proceedings of the Madras Government, Public Works Department,
22nd November 1864.*

No. 451. Read the following letter from Colonel A. J. M. BOILEAU, R. E., Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 16th November 1864, No. 4,063.—

SIR,

1. With reference to the Proceedings of Government No. 1,651, dated 6th June 1864, I have the honor to report that the Superintendent of Marine concurs with me in thinking that the best beacon at the Pier head would be two good sized lanterns, fixed, the one shewing a green light, at the north-east angle, the other, showing a red light, at the south-east angle, of the Pier head.

2. The lanterns will probably have to be procured from England, and I request that they may be entered among the lists of Stores required therefrom lately submitted to Government; or in similar lists supplied by the Marine Department.

3. A very small expenditure, probably under 100 Rupees, would suffice to admit of their being securely fixed every night in position, and some little further amount may be required for a small house for the Light-man, lantern, stores, &c.; but it is not easy to estimate all this until the lanterns are received.

No. 452. ORDER THEREON, 22nd November 1864, No. 3,350.

The Superintending Engineer, 4th Division, is requested to submit, in communication with the Superintendent of Marine, a specification of the lanterns for transmission to the Home Government with Indent.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 4th Division.
