No. 163. Read the following Endorsement of the Superintending Engineer, 5th Division, dated Cuddalore, 27th January 1864, No. 1,824:—

Read the following letter from Captain T. E. GAHAGAN, Executive Engineer of Salem, to Lieutenant-Colonel H. W. HITCHINS, R. E., Superintending Engineer, 5th Division, dated Salem, 23rd December 1863, No. 107.

SIR,

1. I have the honor to forward for sanction on emergency an Estimate amounting to Rupees 850, for improving certain portions of the Darampuri and Morapur road.

1 Abstract of Estimate.

2. A return of the traffic on this road was sent to

you with my No. 76 of the 6th ultimo.

3. You will find in the column of remarks attached to the Estimate a full explanation of the necessity of the work.

4. As the Estimate unquestionably comes under the head of "New Works," I beg to recommend the transfer of the amount from the current year's allotment for the Sooramungalum and Taramungalum Road.

5. It is of importance that the sand should be laid before the hot weather sets in, and I have therefore authorized the Taluq Overseer to set about carting sand immediately for one mile, in anticipation of sanction.

Remarks.

The daily traffic in this road has lately averaged about 218 carts and 31 pack bullocks.

Thirteen miles out of sixteen are in very fair order; but some portions of the 2nd, 4th and 5th miles where the road passes over black cotton soil are very heavy, owing to the black soil having during the last monsoon worked up through the thick coating of gravel which was laid on the road two years ago.

This Estimate provides for laying a thickness of six inches of river sand over the black soil, and a fresh coating of gravel, four inches thick, over the sand.
