		Mis.
Dated	3-2-18	64

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
3th February 1864.*

No. 167. Read the following letter from Colonel A. J. M. BOILEAU, R. E., Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 26th January 1864, No: 727 :—

SIR,

1. With reference to the Proceedings of Government No. 2,571, dated 7th September 1863,
1 Plan. I have the honor to report that a plateau has been formed on each side of the approach to the Madras Pier, without any bulwark, out of the 'Pier-cum-Custom House junction' Estimate, which I hope will seldom be acted on by the sea.
2. Moreover, the cost of 100 yards of bulwark according to the enclosed section would be on the Executive Engineer's Estimate, Rupees 11,000, and under these circumstances I do not consider it desirable to press the subject of advancing De Havilland's bulwark until the action of the sea is noted upon the sloped exterior surface of the present plateau.

No. 168.

ORDER THEREON, 3th February 1864, No. 390.

Ordered to be recorded.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

To the Superintending Engineer, 4th Division.
