*Proceedings of the Madras Government, Public Works Department,
9th February 1864.*

No. 197. Read the following letter from Colonel A. J. M. BOILEAU, R. E., Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 23rd January 1864, No. 4,690:—

SIR,

1. I have the honor to submit, for the sanction of Government, Plan and Estimate amounting to Rupees 5,300 for forming a head sluice in, and excavating a channel from, the south end of the Palar Anicut, for the benefit of the Chakramalur and thirteen other tanks in the Arcot Taluq, now chiefly supplied by the Dusi main channel, the draught upon which however is so excessive as to make it very desirable to relieve it, and let as much water as possible go down to the Dusi Mamamdur tank.

1 Survey.

1 Plan.

1 Abstract Estimate.

2. The present project is a slight modification of that proposed in my report of 1861, and approved of by Government in paragraphs 10 and 11 of their Proceedings No. 257, dated 19th February 1862, wherein I designed piercing the wing-walls with a view of forming therein the new head sluice; the modified scheme converts the south surplus sluice into a head sluice and affords, in case it should be required, the means of surplus discharge by openings in the rear basin wall.

3. The Collector concurs with me that the work is of so much importance as to render it desirable that it should be carried out at an early date, but at this late season I am afraid of recommending any more new works for construction, and therefore request that the Estimate amounting to Rupees 5,300 may be authorized as part of the amount Rupees 33,583 entered for the Palar irrigation scheme in my Budget Lists for 1864-65.

No. 198. ORDER THEREON, 9th February 1864, No. 404.

The Governor in Council sanctions the Estimate of Rupees 5,300, submitted with the foregoing letter, for constructing a head sluice in, and excavating a channel from, the south end of the Palar Anicut for the supply of the Chakramalur and other tanks in the Arcot Taluq. The work will be undertaken in 1864-65 and the cost charged to the year's assignment for the Palar Irrigation scheme.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

Public

Sir,

Enclosure

1. Survey with

1. Plan

1. Abstract

I have the honor to submit for the
sanction of Government Plan and Estimate amounting
to Rupees 5300 for forming a Head Sluice
and excavating a channel from the South end
of the Palai Anicut for the benefit of the
Chikramalur and 13 other Tanks in the
Arcot Taluk, now chiefly supplied by the
Dusi Main Channel the draught upon
which however is so excessive as to make it
very desirable to relieve it, and let as much
water as possible go down to the Dusi Ma:
namdur Tank

2

The present project is a slight
Modification

modification of that proposed in my Report
of 1861 and approved of by Government in
Paras. 10 and 11 of their Proceedings No. 257
dated 19th February 1862, wherein I designed
piercing the Wing Walls with a view of forming
therein the New Head Sluice; the Modified
Scheme converts the South Surplus Sluice
into a Head Sluice and affords, in case it should
be required, the means of surplus discharge by
springs in the rear Basin wall

3 The Collector concurs with me
that the work is of so much importance as
to render it desirable that it should be carried
out at an early date, but at this late season
I am afraid of recommending any more
new works for construction, and therefore request
that the Estimate amounting to Rupees 5300
may be authorized as part of the Amount
Rupees 33,583. entered for the Palar Irrigation
scheme in my Budget List for 1864/65.

I have the honor to be

Sir

Your Most Obedient Servant
