*Proceedings of the Madras Government, Public Works Department,
15th February 1864.*

No. 308. Read the following letter from Captain J. BEAN, R. E., Officiating Superintending Engineer, 6th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Cunni Tope, 1st February 1864, No. 1,710:—

SIR,

Agreeably to instructions conveyed in paragraph 2 of Government Order No. 3 of the 4th January 1864, I have the honor to enclose an Estimate amounting to Rupees 24,800 for completing the Weyacondan channel in Trichinopoly District with a width of four yards, for entry in the Budget of 1864-65. The sum entered in the Superintendent Engineer's letter* at the head of the above Order, for carrying out the work, amounted to Rupees 23,780, but that portion of it which allowed for the excavation of the Channel, excluding masonry works, has been added to by the cost of tools required for the excavation of the bed amounting to Rupees 1,016, and the approximate Estimate has been otherwise corrected, making up the difference of Rupees 1,020.

1 Abstract Estimate.
1 Report.

* No. 1,180, dated 20th November 1863.

† Rupees 20,270.

No. 309. ORDER THEREON, 15th February 1864, No. 459.

With this letter the Superintending Engineer, 6th Division, submits an Estimate amounting to Rupees 24,800, for completing the Weyacondan Channel in the Trichinopoly District with a width of four yards. The project is submitted in accordance with the instructions conveyed in Proceedings dated 4th January 1864, No. 3. Owing to the necessity of providing in the Budget of the ensuing official year for the completion of the many important and reproductive works in this Presidency, which are in progress and have not been proceeded with as vigorously as their importance demanded, the Governor in Council has been prevented from allotting therein any money for the Weyacondan project; but he will be prepared to consider any application that may be made after 1st May next for the requisite grant from the Reserve or for the insertion of the Estimate in the Budget of 1865-65. With such application a statement should be furnished of the revenue derived from the Channel for each of the five years succeeding the commencement of work on the several Estimates referred to by the Superintendent Engineer,* and for each of the five preceeding years, the expenditure of each year and the Estimate to which it relates being also noted. The Government is induced to call for this information, as it is observed that both the Superintendent Engineer and the Collector entertain doubts as to whether the remunerative effects of the project will be commensurate with the outlay and with the anticipations originally formed.

* In letters, dated 7th Oct. 1863, No. 884, and 20th November 1863, No. 1,180.

(True Extract.)

(Signed) CHARLES A. ORR, Colonel, R. E.,
Secretary to Government.

No 459

Proceedings of the Madras Government

Under date the 15th February 1864Read the following
from the Superintending Engineer
6th Division.

Forwarding for entry in the
Budget for 1864/65 an Estimate
of Rupees 24,800 for completing (Forwarded 1st February 1864
No 1710)
the Weyacondan Channel in Trichi-
mopoly District.

With this letter the Super-
intending Engineer 6th Division submits an Es-
timate amounting to Rs. 24,800
for completing the Weyacon-
dan Channel in the Trichi-
mopoly District with a width
of 4 yards. The project is
submitted in accordance with
the instructions conveyed in
Oro. dt 4th January 1864, to 3.
Owing to the necessity ~~there~~
~~exists~~ for providing in the
Budget of the ensuing financial
year for the completion of
the many important ^{& reproductive} works
in this Presidency which are
in progress & have not been

proceeded with as vigorously as
their importance demanded, the
Governor in Council has been
prevented from allotting ^{therein any} money
for the Negacoundam project;
but he will be prepared to
consider any application that
may be made after 1st May
next for the requisite grant from
the Reserve ^{or for the insertion of the estimate in the Budget of 1886.} With
application ~~the Govt requests that~~
a statement ^{should} be furnished of
showing the revenue derived from
the Channel ^{for each of the} five years ~~forwards~~
succeeding the commencement of
works on the several estimates re-
ferred to by the Supg Engr,
& for each of the five preceding
years, the expenditure of each
year & the estimates to which
it relates being also noted. The
Govt is induced to call for
this information, as it is observed
that both the Supg Engr &
the Collector entertain doubts as
to whether the remunerative effects
of the project will be com-
mensurate with the outlay
& with the anticipations originally
formed.
