Dated	16-2-	1864.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, 16th February 1864.

No. 328. Read the following letter from Colonel A. J. M. BOILEAU, R. E., Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 1st February 1864, No. 4,882 :—

SIR,

1. In their Proceedings No. 2,286, 11th December 1861, Government sanctioned, for entry in the Budget of 1862-63, an Estimate Rupees 4,410 for the construction of a road in the Madras District from a point near Chinna Moothen Chavadi on the Basin road to Sheally Moodely's Choultry, nearly two miles to the northward, crossing the canal by the Washermanpettah bridge.

1 Estimate.
1 Specification.
1 Plan.
1 Survey.

2. It is a great pity that any thing was ever permitted to interfere with the formation of this road when sanctioned, the necessity of which was originally pressed and acknowledged so far back as 1857 and 1858. Certain it is, however, that nothing has been done to it up to date.

3. It occurred to the District Engineer, Captain F. Moberly, that by extending the line one mile, to the village of Madaveram on the north, and further that by connecting that village with the old Trunk Road No. 6, to the west, the traffic in that neighbourhood would find a better opening to Madras, and communication would be established, which would prove very serviceable.

4. The old Estimate was therefore set aside, and a revised one made to meet that arrangement. It is herewith submitted, and amounts to Rupees 13,300 providing in all for $4\frac{1}{2}$ miles of a second class road, in lieu of that, $1\frac{3}{4}$ mile long, originally sanctioned.

5. The Board of Revenue and the Acting Collector of Madras have expressed their approval of the revised proposition. Mr. Banbury writes that "the want of the road is much felt by the "public, and that the proposed line would be of very great convenience to them."

6. Under these circumstances I have the honor to request that the revised Estimate, Rupees 13,300, now submitted may receive the sanction of Government, and that permission for its entry in the Budget may be granted, Rupees 12,700 having been already provisionally entered for the road in question in the list forwarded to Government from this Office on the 31st October 1863.

No. 329. ORDER THEREON, 16th February 1864, No. 469.

The Governor in Council regrets that it has not been possible to include the road referred to in this letter in the Budget of 1864-65. The Superintending Engineer will re-submit the Estimate in time for entry in the Budget of 1865-66.

(True Extract.)
