MADRAS RECORD OFFICE.

Government of Madras.

Public Works DEPARTMENT.

G.O. No.	491	Press
		<u>Mis.</u>
371-372		
Dated	18-2	18.64.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
18th February 1864.*

No. 371. Read the following letter from Lieutenant-Colonel E. HEMERY, R. E., Superintending Engineer, 3rd Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Cuddapah, 15th January 1864, No. 265 :—

SIR,

4 Statements.

1. I have the honor herewith to submit the Statements called for in paragraph 4, Order of Government No. 3,681, dated 14th December 1863.

2. Statement No. 1 contains four works on which the sanctioned amount cannot be expended during the current official year, owing to the very late date on which sanction for the extra expenditure was received.

3. Statement No. 2 is forwarded blank, as all the sums allotted for repairs will most probably be expended by the 30th April next.

4. In Statement No. 3 I have entered three works for which additional funds are required.

5. The full amount of the sanctioned Estimate (Rupees 1,23,237) for the Cuddapah and Madras road has been expended on 56½ miles of road, leaving 2 miles still to be completed near Codoor, for which the sum of Rupees 5,000 is urgently required: considering that this was notoriously the worst road in the Presidency, the expenditure on it of little more than 2,000 Rupees a mile including metalling and minor masonry works is very moderate, and the additional sum now applied for is less than 5 per cent. on the amount of the Estimate.

6. The sum of Rupees 2,000 is required to complete the Suddamalla bridge now under progress on Trunk Road No. XI, and a further grant of Rupees 1,474 is required for the Taluq Cutcherry at Hospett, on which the expenditure up to the 30th April 1863 was less than the computed amount entered in the Budget.

7. In Statement No. IV, I have shown that an additional sum of Rupees 5,000 is required for the repair of tanks in the Cuddapah District this year; the Collector having called for a large number of Estimates for the repair of works of irrigation on the road from Cuddapah to Madras the expenditure of Rupees 13,900 on repairs has proved insufficient owing to the constantly increasing traffic which cuts up the newly formed road before it has time to consolidate. It is impossible to keep the carts off this road whilst in progress, and the large traffic of upwards of 700 carts daily at some seasons of the year warrants a further expenditure on repairs.

8. In the Bellary District the annual allowance for the road from Bellary towards Bombay is utterly inadequate, and the same remark applies to the roads from Kurnool to the Bellary frontier at Aspri and Gooty; a further expenditure of Rupees 3,000 is urgently required on the road from Anantapore to Tadpatri, on which Rupees 3,000 have this year been laid out from Local Funds; and the road from Hampasagur to Magala towards Coompta, is reported as greatly in need of improvement.

No. 372. ORDER THEREON, 18th February 1864, No. 491.

1. With this letter the Superintending Engineer, 3rd Division, forwards the Statements required in G. O. No. 3,681, dated 14th December 1863.

2. It is observed from Statement No. 1 that Rupees 39,500, as shown below, are available from the allotments for the Cuddapah, Bellary and Kurnool Districts :—

	RS.
Cuddapah	24,000
Bellary	500
Kurnool	15,000
	39,500

This amount will be credited to the Reserve Fund.

3. In Statement No. 3, Colonel Hemery applies for Rupees 8,474 which is accordingly sanctioned from the Reserve.

*Proceedings of the Madras Government, Public Works Department,
18th February 1864.*

4. In regard to the large sum of Rupees 25,000 applied for in Statement No. 4 on account of repairs, the Superintending Engineer will be informed that Government is precluded from sanctioning any further grants for repairs either from the Reserve Fund or from the allotments for new works.

5. The Government expects that Colonel Hemery will use his best endeavours to ensure the completion of work by the 30th April next, to the full extent of the sums placed at his disposal for new works and repairs in the 3rd Division.

To

The Secretary to Government
P. W. D.

Sir,

I have the honor herewith to submit the statement
of accounts called for in Para 4 Order of Government No 13681
dated 14 December 1863.

2. Statement No 1 contains 4 books in which the
sums have been entered and cannot be expended during the
period of official year ending 31st March 1864. The
statement for the extra expenditure has been
forwarded to the Secretary to Government.

3. Statement No 2 is forwarded blank, as all the
sums are entered for the year 1863-64.
4. Statement No 3 I have entered the works
for which additional funds are required.

5. The full amount of the expenditure for the
year 1863-64 for the Apud d'apab and Shadras Road
has been expended on 5 1/2 miles of road, leaving 2
miles still to be completed near Badon, for which the
sum of Rs 5000 is required. Considering that
this is proportional to the total road in the Presidency, the
expenditure on it of little more than 2000 Rs is very
including material and minor masonry work is very
small and the additional sum now applied for is
less than 5 percent on the amount of the estimate.

6. The sum of Rs 2000 is required to complete the
Suddamallu Bridge, now under progress on 1/4 mile of
road, and a further grant of Rs 1474 is required for
the Suddamallu Bridge, on which the expenditure
up to the 30 April 1863, was less than the estimate.
The amount entered in the Budget.

7. In Statement No 4, I have shown that an additional
sum of Rs 5000 is required for the repair of tanks in the
Apud d'apab District this year. The collector having called for
the estimate.

Statement No 1
for the year 1863-64
has been submitted
to the Secretary to
Government.

1265/2/1864

for a large number of estimates for the repair of works of irrigation on the road from Cuddalore to Madras the expenditure of Rs 13,900 on repairs has proved insufficient owing to the constantly increasing traffic which cuts up the newly formed road before it has time to consolidate. It is impossible to keep the carts off this road whilst in progress and the large traffic of upwards of 700 carts daily at some seasons of the year warrants a further expenditure on repairs.

8. In the Bellary District the annual allowance for the road from Bellary towards Bombay is utterly inadequate and the same remark applies to the roads from Bellary to the Bellary Frontier at Aspid and Lohy, a further expenditure of Rupees 3000 is urgently required on the road from Anantapur to Tadpatri, in which Rs 3000 have this year been laid out from Local Funds, and the road from Hampasagar to Nagala towards Compt. is reported as greatly in need of improvement.
