*Proceedings of the Madras Government, Public Works Department,
4th March 1864.*

No. 98. Read the following letter from Colonel A. J. M. BOILEAU, R. E., Superintending Engineer, 4th Division, to Colonel C. A. ORR, R. E., Secretary to Government, Public Works Department, dated Madras, 24th February 1864, No. 5,245:—

SIR,

1. Additional funds being required this year for certain works in the North Arcot District, which may be met from the savings effected on others, I have the honor to request sanction to the redistribution shown in the Statement entered in the margin.

2. With reference to the savings, I have to observe that when applying in my letter of the 21st August 1863, No. 1,853, for funds on account of the works therein entered, it was overlooked in the case of the 1st and 4th, that there had been an expenditure in the previous year, while as respects the 5th work Rupees 47 were given as the outlay previous to the 30th April 1863, whereas it should have been Rupees 106. The previous year's expenditure on the 6th work was also incorrectly given, Rupees 280 was the actual amount spent up to the 30th April 1863, and not Rupees 338 as reported. The savings entered against the 2nd, 7th, 8th, 9th and 10th works are the respective amounts reported by the Range Officers as not being required for them this year.

3. Referring to the works for which additional funds are now requested, I beg to explain that the first three were inadvertently omitted from the Statement which accompanied my letter above quoted. They have now been completed, and it is therefore necessary that funds should be properly appropriated for the expenditure incurred during this year.

4. As respects the 4th work, Rupees 5,000 were allotted for carrying on the operations connected therewith in the Proceedings of Government No. 2,575, dated 7th September 1863. This sum has been nearly expended, but there remains due to Contractors for work done Rupees 2,415 which should be at once paid.

5. With reference to the 5th work, I reported in my letter of the 11th February 1864, No. 5,007, that application for additional funds on its account would be made in Statement No. III, about to be furnished under the Orders of Government No. 3,631, dated 14th December 1863, I have however since found that the savings effected on other works will be sufficient to meet the amount required, and it has been accordingly omitted from that Statement.

No. 99. ORDER THEREON, 4th March 1864, No. 655.

On the assurance of the Superintending Engineer, 4th Division, that the sums entered under the head "savings on allotments" are available, the Government sanctions the re-distribution of funds proposed in this letter.
