*Proceedings of the Madras Government, Public Works Department,
8th January 1864.*

No. 151. Read the following letter from Lieutenant-Colonel J. C. ANDERSON, R. E.,
Superintending Engineer, 2nd Division, to Colonel C. A. ORR, R. E., Secretary to
Government, Department Public Works, dated Masulipatam, 23rd December 1863,
No. 39 :—

SIR,

1. I have the honor to solicit sanction to substitute for the returns of traffic through the
locks at Bezoarah and Seetanagram, which are submitted with the annual Progress Report,
"returns of the traffic on the main canals at Bezoarah and Seetanagram."

2. As explained in the Administration Reports of the District Engineer Kistna for 1861-62
and 1862-63, the traffic through the head locks is no indication of the traffic on the *canals*, as the
greater number of the boats that ply on the canals do not pass through the locks at all. Large
shipments are made on the canal at Bezoarah of produce from the inland Taluqs, along the line of
road from Hyderabad, and from the westward including a large quantity of cotton from the
Palnad; and Commissariat stores, salt, sugar, &c., from Masulipatam and Ellore, are brought up
the canals and landed at Bezoarah, without ever passing through the head locks. With the
numerous passenger boats it is the same. The propriety of the proposed change must, therefore,
be very obvious.

3. The Masulipatam and Ellore canals branch off from the main channel, at the distance
of several hundred yards from the head, and if desired a separate return of the traffic on each can
be submitted: and with the Progress Report for the current year I can furnish amended returns
for the two previous years.

No. 152. ORDER THEREON, 8th January 1864, No. 73.

The suggestion contained in paragraph 1 is approved.
