*Proceedings of the Madras Government, Public Works Department,
9th December 1864.*

No. 152. Read the following letter from Lieutenant-Colonel J. C. ANDERSON, R. E.,
Superintending Engineer, 2nd Division, to Colonel C. A. ORR, R. E., Secretary to
Government, Department Public Works, dated Masulipatam, 21st November 1864,
No. 102 :—

SIR,

With reference to G. O. No. 2,970, dated 15th ultimo, ordering the despatch of certain
machines from the Bezoarah Workshop to the Presidency, I have the honor to request the
Government to be so good as to allow me to retain the Screw Cutting Lathe, which they have
included in their requisition. This and the Punching Machine are in very frequent use, and
except the steam engine that drives them, could be less easily spared than any other machines
in the Workshop. The only other lathe in the shop is a small one, which was made on the spot,
and which is of no use, except for turning wood roughly.

No. 153. ORDER THEREON, 9th December 1864, No. 3,507.

Under the circumstances stated, the Superintending Engineer, 2nd Division, is authorized
to retain the Screw Cutting Lathe referred to in this letter.
