1. I have the honor to request to be informed, as regards my second report* to Government on the effects of the floods in the Coleroon river, which caused a breach in the southern branch of the lower Anicut, whether I am to take any measures towards procuring material for the restoration of this work.

2. The season is fast approaching when we may expect the final subsidence of the river floods for this year, and may re-commence working operations. Every week is now of importance with regard to the preparation of brick and lime kilns, and collection of laterite and granite stone.
